Popular Mechanics Magazine

INDEX TO VOL. XLII

1924

Edited by H. H. WINDSOR

July to December, Inclusive

Popular Mechanics Company
CHICAGO

Index to Volume XLII, 1924

A

Accidents
by drowning in U. S. yearly 7,000 to 8,000 .. 982
persons blinded in industrial accidents 986
street car overturned by auto 76
thousand in hour in U. S. 753
Acids
cleaning fluid, safety container for 344
holder for pan 314
rubber-lined barrels proof against 394
Acridine—dangerous if exposed to sunshine 197
Advertising
coin in slot machine sells ad combs 992
illuminated ads on trucks at night 394
mirror signboard at sharp corner 888
revolving tank covers water tank and advertises theater 982
sewing kit, New York hotel puts on dresser .. 538
waste steam used in advertising 892
window advertisement 830
Aerial Postal Service
Alaskan mail time cut by air delivery 553
mail service, air, special box for 564
night mail marks new era 267
U. S. and South America to be linked by two mail lines 634
Aeronautics
airplane compass guides fliers 986
aluminum for aircraft construction 367
motor-made gale used for testing airplane ... 415
one-man flivver plane 925
Africa
rivers of ink found in 697
white slaves found in 711
Agriculture
heavy losses caused by insects 223
keeping army busy in peace time aiding industry and agriculture 554
tillage operations, frequency of 156
Agriculture — South America — Uncle Sam tests corn grown in 391
Agriculture—Sweden—electric power used to work farm land in 410
Agriculture—United States
farmers, juvenile, nation's crops improved by .. 420
increase predicted in farming 356
Air—transformed into liquid state 423
Aircrafts—pneumatic tires for giant 888
Airplanes
bombing, zooms near old-fashioned stage coach 89
damages roof of house in fall 617
flap on wing eases landing of 781
horse shipped by from Amsterdam to Paris .. 574
pigeons defeated in race with 355
six, added to equipment of New York police .. 784
to fly without propellers 54
wing like window shutter 79
Airship—ZR-3, modern luxuries on 358
Alarms—lamps show if factory machinery is working 149
Alaska
breaking paths across 93
desert sands in, sun reveals 241
mail in, time cut by air delivery 553
motorboat carried into wilds by ship and rail 637
railways save on lights 624
Alcohol—substitute sought for, used in flavoring extracts 543
Alligators—grown on farm, sold by mail 119
Alloys—permalloy to speed up cables 363
Aluminum
church bells made of alloy of 904
cleaning kettles 686
colored, used for wall paper 462
given strength of steel for aircraft construction 367
glitter of gold found in alloy of copper and aluminum 389
repairing oil pans 333
Ambulances—motorcycles made into 640
Ammonia—volcanoes yield 252
Amsterdam—diamond polishing by craftsmen 370
Amusement Parks—mysteries of 756
Anchors—warship, how navy keeps from getting lost 544
Animals
animal life of topsy-turvy land 77
camel, steering gear through nose of 285
dog travels 3,000 miles to home 276
feeding in zoo 787
Ants
pillars of church honeycombed by 214
raised to aid fruit growers 355
work for lumbermen 809
Aquaplaning—airplane toboggan yields thrills 719
Arbor Presses—jack acts as 140
Archaeology
boat, relic of stone age 595
butcher's bill on stone slab 990
dragons of stone age hauled from mud 109
ruins of city found in Sahara 887
Architecture—buildings in form of plants, spiritual science expressed by 219
Architecture—Domestic
beauty and utility combined in latest houses .. 243
space in home saved by turntable 253
Arctic Regions
big coal deposits found in 883
boy explorers, drift in sixty-foot boat 533
charting waters of 796
hunting oil beneath polar snows 597
insects of, shown in one box 747
ship, coast-guard cutter "Bear," to leave 542
Argentine Republic—steel walls to stop locusts in . 980
Armatures—giant and tiny contrasted 786
Army
football helps in drive for recruits 199
night warfare taught soldiers by blind-folding 813
Art
race in park tests pupil's skill 564
world contest in design inspired by native American 419
Asbestos—air mail rushes suits to oil fire fighters . 733
Ashes—shaker, dustless, homemade 874
Asphalt
clogs for workers 660
lining with, stops loss of water in canals 369
pure, oil well produces 472
roads built of rubber and asphalt in Europe a success 546
taken from mines 235
tennis court made of 793
Astronomy
giant telescope in Russia to observe Mars 575
huge telescope to aid in photographing Mars 397
sounds heard from stars 291
three comets due in 1924 394
Athletics—pole vaulter, laws of mechanics aid ... 74
Atlantic Ocean—current sought with sea thermometer 375
Atoms—mystery of, told by flash of electric lights . 607
Automobile
avoiding locking of steering gear 349
built like steam locomotive, tourists use 553
cast-off bodies hold bank of river in place 255
chains put on without leaving car 196
converting touring car into sedan 688, 865
cost more than furniture 911
hitched to street-car trailer, freight and passengers hauled by 801
laboratory tests for used 223
more popular than telephones 439
on railway wheels for fast emergency service .. 423
pistol hidden in auto lever 754
protective measures for 529
royal coach of India replaced by 537
sidewalk motor car seats thirty persons 289
skyscraper solves parking problem 565
three-wheeled, low fuel cost of 609
unloading 669
U. S. owns four-fifths of 418
use half of glass industry output 432
wallpaper finish for bodies 975
Automobile—Driving
auto hazard in green sunshades avoided by changing color 926
changing Ford clutch lever to foot control .. 862
eye tests for autoists proposed 798
"lighthouses" warn motorists 395
mind tests for drivers 705
one-armed man drives 292
spare wheel at rear of car aids parking 892
Automobile Industry
auto bodies cut from planks with no waste .. 608
Automobile Touring
auto built like steam locomotive for touring .. 553
hampered by butterflies 367
how to pull out of mire 658
Automobiles—Design
converting touring car into sedan 688, 865
inclosed, roof ventilation for 784

Gen. Valve.

Automobiles—Design: (Continued)
small three-wheeled ... 720
taxicab with front-door entrance ... 458
Automobiles—Equipment and Supplies
air valve ... 30
auto motor heat meter ... 990
carry small can for catching gasoline for patches ... 333
disappearing top converts roadster into coupe ... 440
flexible spout as funnel ... 799
folding rear windshield ... 974
fuel strainer and gauge eliminates stick ... 648
heater built in water pipe ... 56
lavatory under running board ... 374
luggage holder ... 113
luggage rack and tent combined ... 233
means for locking wheels ... 694
pail for filling radiator ... 687
preventing draft in touring car ... 334
radiator fan, reversible ... 62
rubber gutter on top shields car from rain ... 100
shades to prevent accidents ... 926
side curtains, protecting ... 693
snubbers for balloon tires ... 533
switchless auto stop light ... 958
trunk rack changed into luggage carrier ... 242
twin roller bearings absorb shocks ... 903
two pocket conveniences ... 332
washers made from old hat ... 699
windshield for rear seat ... 700
windshield wiper, little current required for ... 775
Automobiles—Fuel
automatic filling gasoline stations ... 424
ethyl fluid increases power ... 14
gasoline tank cap, preventing loss of ... 336
mileage affected by roads ... 578
valve adjusters save gas ... 903
Automobiles—Ignition
adjusting Ford coils ... 699
dash lamp socket screwed under hood, double purpose of ... 507
fat spark no aid ... 924
Ford, water-proofing ignition leads of ... 343
repairing leaky spark plugs ... 1047
spark-plug cleaner ... 479
spark-plug cleaner fits in pocket ... 736
spark-plug holder ... 1011
spark plug prevents carbon ... 120
stop leaks in wires ... 753
Automobiles—Lighting
bulb has two filaments ... 905
lights turned up or down by knob on steering wheel ... 981
night driving made safe by running board lights ... 925
spring bracket for truck tail light ... 843
switchless stop light ... 958
touch on lever tilts lights ... 552
Automobiles—Lubrication
clutch-collar oiler ... 32
grease-filled shackle bolt nut eliminates squeaky springs ... 992
lamp on oil gauge of Ford ... 226
lubricant for springs ... 319
touch of button oils chassis fitted with lubricator tank ... 939
Automobiles—Radiators
emergency radiator ... 875
glucose for anti-freezing solution ... 1000
mending leaks ... 169
stopping leaks in ... 872
Automobiles—Repairing
accelerator rod bushing ... 475
adventures of an auto trouble shooter ... 1005
axle key for temporary use ... 684
brakes, adjusting ... 350
brake spring, tool for replacing ... 653
brush operated by motor removes carbon ... 803
connecting the universal joint of a Ford ... 328
curtains, mending ... 159
distributing wear in starter ring gears ... 666
eastern high school teaches girls ... 587
exhaust heater, stopping leaks in ... 161
finding loose wristpins ... 1047
frames for tilting autos ... 895
keeping grease from brake bands ... 1040
making plate-steel levers ... 660
motor leads, taking strain off ... 837
one-man engine stands ... 291
preventing choker-wire damage on Ford radiator ... 1016
preventing loosening of exhaust nut ... 695
protecting auto upholstery ... 1016
removing scratches ... 1003
testing crankshaft for cracks ... 1034
testing rod bearings ... 1047
Automobiles—Safety Devices
human voice imitated by horn ... 102
limiting speed of ... 516
mirror lens for tail lamps ... 69
sun visor adjusted from inside of car ... 108
warning hand as signal ... 603
Automobiles—Starting Devices
automatic primer ... 240
cranking a stiff car ... 341
Ford, choking in cold weather ... 873
starting a balky Ford in cold weather ... 1014
Avalanche
easy to start ... 251
wild boar incased in ice ... 397
Aviation
aerial raiders, London plans defense against ... 57
aircraft landing field, one-sided ship is ... 69
aircraft mother ship "Hermes" ... 284
airplane, British, round-world race of ... 12
airplane parachutes ... 535
airplane service in gold fields of Canada ... 273
airplanes, diseases spread by wind studied with aid of ... 770
airplanes' range of flight limited by fuel-carrying capacity ... 771
air raiders bomb model ships ... 810
around the world flight ... 712
beacons to guide airmen ... 298
fog-piercing ray to guide fliers ... 918
French air progress speeded up by building of toy planes ... 808
glider in air nine hours ... 959
lightweight lifeboats for seaplanes ... 376
making the air safe for fliers ... 977
man-power machines near ... 362
night mail marks new era in ... 267
river bombed by army planes to break up ice jams ... 118
skeleton adopted as symbol by fliers of jinx air fleet ... 886
swiftest way to girdle earth ... 440
weather bureau uses toy balloons to guard airmen ... 54
welding outfit carried by airmen ... 748
with the new mosquito fleet ... 906
Ax—causing to cut easily ... 347

B

Babbitting—repairing worn bearings ... 520
Babylonia—music of, on old tablet ... 917
Bacteriology—germs identified by way they eat ... 55
Baggage—handbag combined with sample case ... 782
Bags—mesh bags woven from wire ... 909
Bakers and Bakeries
cake in form of book ... 633
mixing machine for ... 825
pies, baking millions for nation ... 279
Ballot—votes recorded by machine without ballots 18
Balls—seven-foot ball in drive for recruits ... 199
Bananas
America's yearly imports of ... 884
banana fiber substitute for graphite ... 362
consumed in U. S. daily ... 941
Banks and Banking
camera snaps face and name of customer ... 607
false banknotes detected by feel ... 776
money boxes chained to car to foil bandits ... 615
Barbers—shop on auto ... 941
Barns
doors ... 525
hinged track section in barn ... 1043
proper ventilation for ... 841
stanchionless dairy ... 491
Barrels
metal, revolving on pipe for playground ... 615
rubber-lined, proof against acids ... 394
Baseball
every move in ball game shown on screen ... 966
pitchers, grips used by ... 33
retriever for lone pitcher ... 349
Bathhouses
garage and bathhouse combined ... 1003
ship built on land is ... 733
Baths—improvised shower bath ... 1011
Bathtub—and safety vault combined for the summer cottage ... 168
Beads—stringer ... 463
Bearings
crankcase bearing, taking up play in ... 147
making use of small cone bearings ... 1052
oil-absorbing metal perfected for ... 193
overheated, remedy for ... 843
rubber pump bearings, cutting and scoring avoided by ... 122
Bees—shipped by mail ... 576

Beetles
bean, spreading northward ... 809
grub of, thirty years' life ... 709
Beets—digger and topper attached to tractor ... 462
Belle Isle, Michigan—diving for gold lost at beaches ... 437
Bells
church bells made of alloy of aluminum ... 904
mechanical call ... 868
Belting
beeswax and neat's-foot oil make dressing for ... 830
slipping belt made to grip with ashes ... 1051
Bench—movable workbench ... 1036
Bible — Antiquities — ruins, unearthed, bear out stories ... 194
Bicycles
spoke nipples, use screwdriver to tighten ... 827
test muscles riding on stationary ... 940
trailer for carrying children ... 1003
trip around world begun by rider ... 748
water bicycles for river carnivals ... 949
Bird Houses—stucco finish for ... 696
Birds
braying, found in cruise ... 68
canaries taught by phonograph ... 939
canary helps save lives in forty-nine disasters ... 90
chicken-proof feeder ... 347
crow shooter, call lures ... 741
jackdaws, steeples toppled by ... 734
kiwi, has growl of dog ... 813
man aided in war of insects by ... 610
ostriches do not hide heads in sand ... 276
parrots live for thirty years ... 115
perches placed for protection of ... 769
pigeon breeding hobby of many Americans ... 218
shower baths revive ... 100
skeleton of largest flesh-eating bird ... 576
Blackboard—tilts to ease eye strain ... 891
Blindness
blind taught to weave rugs ... 423
industrial accidents the cause of ... 986
Blood—donors, supplying hospitals, a new trade ... 809
Blowers—furnace blowers ... 870
Blueprints
rack for ... 846
waterproofing ... 651
Boar—wild, encased in ice ... 397
Board—made of mixed minerals, fireproof ... 987
Boats and Boating
boat, folding ... 441
boat hoist, concrete ... 477
boathouse for small canoe club ... 345
boats made of straw carry tons of freight ... 91
building a trailer for boat ... 163
Chinese junk docks in New York after two-year journey ... 595
collapsible canoe for automobile tourists ... 433
lifeboats on voyage of 16,000 miles ... 241
portable canvas, building ... 511
rowboats, folding centerboard changes into sailing craft ... 120
towing small boat against wind and current ... 169
yacht held steady by gyroscope ... 910
yacht modeling teaches seamanship ... 983
Boilers
scale prevented by electric current ... 285
steam, built extra strongly ... 583
Bookcases
and table combined ... 355
desk and bookcase built in closet ... 323
extra bookshelf economizes space ... 1001
supporting sagging shelves ... 509
Books—bookshop, New York's smallest, radio aids ... 494
Boots and Shoes
auto tires used to make ... 771
buckle of shoe, picture worn in ... 400
detachable heels and soles for ... 801
heating shoe patches ... 334
new, piece of adhesive tape prevents slipping ... 159
protector for the youngsters ... 162
scraper, iron pipe rail protects ... 692
shoe stand, clamp for holding ... 602
shoestring tip, roll in glue or shellac to replace ... 527
Borglum, Gutzon—memorial statue for Military Park, Newark, N. J., by ... 200
Boric Acid—volcanoes yield fortunes from ... 252
Boring Machinery
hole cutter for wood and metal used like wrench ... 939
serviceable post-hole auger ... 652
Boring—Tool—holder for ... 140
Boston—gun with three-hundred-ton barrel for Boston harbor ... 277
Bowling
ball polisher, felt collar, protects players ... 634
one-man alley ... 73
Boxes
battery box, waterproof ... 518
for odds and ends ... 700
Brackets
for wagon lantern ... 336
wire bracket holds valve spring ... 327
Braiding Machine—guide for special work ... 328
Brake-Rod—silencing rattle of ... 167
Brakes
attaching lining ... 650
bands, truing ... 138
for hand hoist ... 1046
for shop trucks ... 1035
internal, tool for adjusting ... 150
tool for replacing brake spring ... 653
Brass
annealed by heating cherry red ... 329
brush finish on ... 1042
testing brassware ... 1002
Bread
Uncle Sam bakes bread to test flour ... 939
whole wheat, made directly from grain ... 957
Bricks
electric drier for kiln samples ... 834
interlocking hollow, costs reduced by ... 544
work of twenty masons done by electric brick-layer ... 369
worn paving bricks used for manholes ... 1034
Bridges
at mystic Connecticut novel features ... 115
built on wheels and transported to site ... 441
electricity burns apart ... 810
guard gates used as ... 320
Niagara Gorge, engineers show skill in bridging ... 542
piers for footbridge, trees form ... 786
single arch, for Sydney, Australia ... 411
suspension, across Hudson river ... 431
will link Camden and Philadelphia ... 630
Bronze—molten, phosphorus and manganese give strength to ... 836
Brooms
broom with two heads in holder ... 108
holder ... 702
Brushes
fit water hose ... 982
holder ... 702
keeping paint brushes soft ... 1042
typewriter, has three sets of bristles ... 69
Building
blocks, lime and sawdust, resist fire, sound and moisture ... 718
concrete lumber ... 928
floor, concrete, hung from beams ... 576
green lumber reduces building cost by using calked seams ... 947
hoisting tower on auto ... 948
houses of rammed earth lower cost ... 839
platform, extension, for worker ... 251
protecting building operation lantern ... 659
schoolhouse moved on canal barges ... 981
skyscraper built without rivets ... 541
steel framework for fireproof house cut and fitted on site ... 786
tower built on ground raised by derrick on tractor ... 226
wheeled platforms for plasterers ... 662
Bullet-Proof—hunting suit ... 783
Bushings
and liners, heat method of removing ... 604
taking up play in ... 478
Butterflies
art work ... 337
auto traffic hampered by ... 367
colorings rivaled by paint brush ... 434
pictures formed of butterfly wings ... 753
Buttons
coverer, waste cloth used by ... 642
needle-finding button saves cloth ... 894

C

Cabbages—island covered with ... 564
Cables
permalloy to speed up cables ... 363
phone, yearly output of ... 417
stranded wire, making ... 324
Cactus—cattle guard made of ... 1035
Cake—in form of book, railway presents to club ... 633
Calculating Machines
calculator on typewriter ... 258
computer fits any pencil ... 11
Calendars—past dates canceled by ... 37
Camels—steering gear through nose of ... 285
Cameras
built for queen's doll house ... 911

Cameras: (Continued)
clock, camera, records race victor 277
like telescope, has dummy front lens 241
novel for printed matter 80
portable radio made from 847
speed lens, needs no flasher or searchlights 264
Camping
camp fire stove with revolving bracket grid 389
camp lighted by outboard motor 683
double-walled oven 425
ice machine for tourists 459
outfit for automobile 49
oven clamps on auto 748
pockets sewed to tent walls for small articles 875
Canada—airplane service in the goldfields of 273
Canals—asphalt lining stops loss of water in irrigation 369
Canaries—taught by phonograph to sing like nightingales 939
Cancer—experiment with animals as cure for 196
Candy—filling the world's sugar bowl 779
Canning Industry—rapid growth of 242
Canoes
collapsible, for automobile tourist 433
increasing buoyancy of 521
Can Openers—can opening made easy by handy block 527
Caps
helmet, rubber, for swimmer 765
maps printed on cap lining 595
Caps (metal)
filing 156
screw caps for tanks 1001
Carbon—brush operated by motor removes 803
Carbon Monoxide—poisoning 342
Carburetors—fan keeps dust from 602
Carpentry—planing window frames 667
Cartoons—animated, drawing for movies 611
Caruso, Enrico—voice broadcast in 1909 849
Carving—eggs cups carved from bits of coal 916
Cash Registers—turntable for 329
Casters—of fabric, noiseless 376
Casting—bronze kink 154
Cathedrals
designed by youth dedicated in England 782
model carved in wood 803
Cattle
grape seeds and skins converted into stock food 200
hogs tattooed by Uncle Sam, to trace plague 587
live stock, railroad uses compressed air to feed 544
Celluloid
bending spectacle frames of 173
cementing to glass 522
keeps report sheet clean 1049
Cement
cementing glass to celluloid 522
flexible filler 336
for ebonite and hard rubber 335
for uniting metals 843
painting with cement protects iron 659
Portland, new process for making 34
Centering
centering short shafts 328
shaft-centering tool 666
Century Plants—leaves used to make ice 374
Chains—liners, forged by thousand-ton hammer 17
Chairs
attachment makes high chair 863
back and foot rest for fishermen 514
chair, stool and table combined 225
easy, for workers 755
folding, more space in aisle by 616
morris, desk attachment for 871
roll couch for camping 34
Chandelier
made of twenty-five thousand welded pieces of iron 546
woven by sailor of rope 600
Charts—keeping record map up to date 1035
Cheese—importation to America trebled 919
Chess—ship radio operators play chess by radio 306
Chicago
acres taken from lake to make park 402
concrete floor hung from beams 576
dynamite used to destroy lake crib 891
Lake Michigan turned into park land 737
passenger station nearing completion 282
tunnels of Chicago 805
Children—country community served by child welfare hospital 647
Chimes—in tower of war memorial at Washington to have two hundred tones 431
Chimneys—lone chimney sweep, wears tall hat 396
China
blight-resisting chestnut found in 574
large mint built in 409
China: (Continued)
towerless windmill with merry-go-round sails 927
wax produced by insects used for candles in 910
Chronometer—camera clock records race victor 277
Chucks—bevel-gear 149
Churches
gospel mission on motor truck 285
lighthouse is substitute for spire 224
passing the plate by radio 858
Churn—plunger with two revolving blades 1002
Cigarette Holders—filter in 107
Cigarettes—slot machine for 883
Cigars
automatic lighter handy as paper weight 439
lighter for auto worked with one hand 258
smoke, why blue 623
that won't break in pocket 30
Cinders—oil burners cause cinder shortage 987
Ciphers—code, message, government experts work out 13
Cistern—lid, accidents prevented by lock 816
City Planning—the future city 227
Cleanliness—preventing sticky counters 667
Cleveland, Ohio—electricity for city carried through subway 400
Clips
double-grip battery clip 306
emergency for electric battery 334
magazine, use for 321
spring clip for tank-wagon gasoline hose 1049
Clocks
biggest in world 248
old, repairing 876
time in all parts of the U. S. told by 31
trick saves alarm clock 1002
without a face 887
Clothespins—prevent splitting 524
Clothing
patching with rubber tissue 170
the men of the nation 435
Clutch—compensating clutch for driving 840
Coal
big deposits found in Arctic 883
egg cups carved from 916
hard coal as substitute for jet 273
power of two handfuls 981
stored under water, fire danger stopped by 96
tipple turns coal car over 991
Coast Guard
ship "Bear" to be relieved from service 542
work of on sea 579
Coaster—roller coaster 1016
Coins—fifty-cent pieces to commemorate Stone Mountain Memorial 67
Coke—coke dust substitute for emery 252
Collars (mechanism)—making in one operation 327
Colorado—surveyors locate mountain road 249
Colors
burnt umber with white and orange gives warm drab colors 1046
butterfly colorings rivaled by brush 434
Combustion—setting sugar afire with ashes 600
Comets—three, due in 1924 394
Communication—how news is flashed over the land 567
Compass
airplane compass guides flyers 986
in ring for electrical tests 967
Compasses
beam compass easily constructed 526
improving joint of 150
Computer—fits any pencil 11
Concrete
attaching carpet to concrete floor 1051
boat hoist of 477
breaking up pavement 1051
castings for garages 600
"gas concrete," made for sawing, planing and nailing 459
hog wallow made of 475
liquid applied to forms leaves artistic finish on 64
"lumber" to cut building costs 928
mixer, farmer's 828
reinforcing corroded steel tower 1041
tree trunk of, office of realty firm 411
water heater for contractors 1033
Connecting Rods—holding in vise caps 863
Containers
growing importance of tin can 892
kerosene can, automatic air vent for 869
safety container for cleaning fluid 344
Conveyors
hinged track section in barn 1043
scoop, sand loaded with 374
turning corner on 474

Cookery
barbecue, roadside, for motorists..... 417
cooking-guide cabinet, metal..... 464
fowl, hint for stuffing..... 351
Cooking Utensils—camp grate, folds up..... 341
Copper
alloy, glitter of gold found in..... 389
annealed by heating to red heat and plunging in cold water..... 315
preserving color of 836
Cork—puller, two pronged..... 251
Corn
corncob dipped in resin makes fire lighter.... 703
crib door hood, simply made..... 668
making wood from corncobs..... 240
new use for cobs..... 525
popping in kettle..... 169
Uncle Sam tests..... 391
Corrosion and Anti-Corrosives
painting with cement protects iron..... 659
rust-preventing oil 670
Costumes—thousand years shown by dolls..... 392
Cot—portable, canvas, for campers..... 54
Counterfeits—automatic coin changer detects.... 785
Counters—preventing sticky 667
Countersink—improvised 314
Cream—water power used to run separator..... 654
Crimes
banknotes, false, detected by feel..... 776
beating burglar at own game..... 896
billions yearly cost of in U. S..... 553
camera snaps face and name of bank customer 607
criminals captured by finger-print pictures sent by telephone..... 573
criminals on revolving tables, masked sleuths study 765
drawers foil petty thieving.....1051
giant searchlight to aid war on..... 363
measures for protecting autos..... 529
mimic train robbery tests mail car..... 884
money boxes chained to car to foil bandits.. 615
National Crime Bureau files finger prints.... 736
protection against forgers..... 589
weather records as detectives help clear mystery 116
Crocodiles—sought by hunters 48
Crowbar—origin of name..... 552
Cuff Links—expanding 982
Cuspidors—handy carrier 835
Cutters—improvised sheet-iron cutter..... 836
Cylinder Blocks—replacing 141

D

Dairy
goat dairy run by woman..... 291
stanchionless barns 491
Dances and Dancing—radio at a pinch as orchestra 299
Date Palms—date pickers walk up tree..... 361
Deaf
lip reading taught by movies..... 635
"talkless phone" for deaf mutes..... 636
Deafness—testing hearing to safeguard life..... 539
Death Valley, California—portable highway across 958
Decay—removing odors from ice boxes.....1000
Decoration and Ornament
cover for curtain top..... 333
gold-plated stones on skyscraper..... 887
ornaments made of deadly war gas..... 214
stairway handrail 1018
Deer—perfume supply periled by ban on killing of musk deer 958
Deerfield River—run into funnel for electric power 710
Dentistry—specialist pulls horse's teeth..... 602
Department Stores—date book for appointments.. 905
Derelict—schooner, deserted, steamer finds..... 45
Deserts—summer sun reveals desert sands in Alaska 241
Desk
and bookcase built in closet..... 323
morris chairs have desks attached..... 871
Desolation or Kerguelen Islands—covered with cabbage 564
Diamonds
craftsmen of Amsterdam polish..... 370
found on farm in S. Africa..... 982
miners, chance discovery saves millions for.. 450
mines, romances of..... 89
prices doubled in ten years..... 427
radium and heat change color of..... 97
small, welded into large stones..... 120
Diatoms—fossil plants aid in finding oil..... 647
Diesel Engine—in locomotive hauls train one hundred miles 926
Dining Rooms—folding 752
Disabled
crafts mastered by disabled veterans..... 545
invalid, wheeling into auto..... 861
one-armed man drives auto..... 292
statues modeled from memory by crippled children 263
Diseases
tropical, exhibit shows war on..... 575
winds influence, studied by airplanes..... 770
Disks—riveting to hubs.....1048
Doctors—England's, 2,000 women..... 710
Dogs
cemetery, marked plots in..... 741
collie awarded medal for saving life..... 583
collies trained to pull with pony..... 919
poodle wins prize..... 362
travels 3,000 miles to his home..... 276
Dolls
portray historic figures of pioneer age..... 65
thousand years of fashion shown by..... 392
well-known stage characters impersonated by 77
Domestic Science
brides, "practice flat" teaches, how to keep house 37
girls taught home management in school..... 214
Doors
anti-rattling doorstop 527
barn doors, locking..... 525
control for trapdoor..... 327
making artistic storm 873
opening the pantry..... 160
push plates, decoration for..... 508
skid-chain door handle.....1018
three-door arrangement of garage doorway.. 351
Dornach, Switzerland—buildings in form of plants express spiritual science..... 219
Draftsman—two kinks for..... 313
Drain Pipes
clog-proof, absorb water..... 800
for washing machine..... 343
non-reversible 324
Drains—installation, novel 147
Drama—from stage thrills to radio drama..... 993
Drawers
foils petty thieves.....1051
pull and handle combined..... 139
Drawings
art race in park tests Japanese pupils' skill.. 564
cloud effects on..... 827
"working model" aids drawing students.....1044
Drawing Board—disappearing, can be folded into table or drawer..... 693
Dredges—clamshell, one cable, automatic..... 124
Dressmaking
paper dress models of fashionable gowns.... 225
taught in schools in the United States..... 547
Drills
drilling glass and pottery..... 324
headless nail used as..... 685
production work on drill press..... 315
stop for radial drill.....1033
watchmaker's lathe, drill press made from.. 524
with positive feed works at any angle..... 123
worm-gear attachment for press..... 325
Drinking Fountain—sanitary fountain for windmill 507
Drowning—better holds and grips aid in rescue . 199
Drydock—world's largest 802
Dust—model of grain elevator shows danger of combustion 808
Dynamite
fuses, carrying case for 477
used to destroy lake crib..... 891

E

Eagles—cause failure of telephone wires..... 892
Earth—oil wells and skyscrapers threaten our globe 603
Earthquakes
cracks in earth caused by..... 409
oil wells and skyscrapers threaten..... 603
East Hoatley, England—labor-saving village by means of electricity 565
Ebonite—and hard rubber, cement for repairing.. 335
Editors—mail bag 176, 352, 528, 704
Efficiency—Industrial
easy chairs for workers..... 755
keeping record maps up to date.....1035
making weather for workers aids quality of products 946

Efficiency—Industrial: (Continued)
ticket printer for stores..... 649
weak eyes cost millions in the schools..... 754
Eggs
hens, light rays increase lay of..... 415
production, low, cause of..... 693
where yolks get color..... 967
Egyptology—Egyptian feats rival modern works of engineers 403
Eiffel Tower—painters risk lives in working on.. 742
Ejectors—emergency ejectors by F. W. Salmon.1037
Electric Apparatus and Appliances
electrode, wedge locks..... 122
plug puller guards lineman from shocks..... 30
static electric engine, National Museum shows 79
Electric Batteries—loosening corroded terminals.. 350
Electric Flash Lights—concealed in walking stick 220
Electric Fuse—compact tester..... 320
Electric Generators—compensating clutch for driving 840
Electric Lighting
broken chain-pull sockets used..... 347
cement guards for signs..... 948
electric light on razor..... 199
flood lights 395
liquid glue used to repair lamps..... 343
miners, electric lamps reduce explosions.... 543
ruby lamp made from pocket flash..... 584
war memorial beauty revealed by searchlight 235
water-tight fixture protects light..... 525
Electric Lighting Fixtures—portable lamp, support for 147
Electric Locomotives
has "two-in-one" gear shift..... 95
switch engine cuts cost and smoke..... 396
Electric Power
electricity, for city carried through subway.. 400
power of two handfuls of coal..... 981
tasks done with electricity..... 975
used on farm lands in Sweden..... 410
windmill on silo generates electricity..... 917
Electric Switch
automatic switch for garage..... 506
for both A and B batteries of radio set..... 299
Electricity
bridge burnt apart by..... 810
claims more victims than lightning..... 256
current, invisible wire gauges strength of.... 249
death-dealing "rays" 189
drawn from air made to light lamp..... 809
eagle's nest causes telephone short circuit.. 892
electrical labor-saving village..... 565
engineers seek way to stop loss of..... 740
from windmills 747
growing grass by..... 891
keeps fish alive in canals..... 765
New York merchants use million lamps in electric signs 65
small compass in ring tests..... 967
vacuum tube explores mysteries..... 411
Electrons
electric mysteries, vacuum tube explores.... 411
mystery told by flash of electric light..... 607
Elephants
African, dangerous 471
loading 640
Elevators
community, hillside dwellers have at Hollywood 609
machine for testing..... 394
speed set by machine..... 888
Embroidery
embroidering machine for the home..... 418
woman embroiders head of Saviour..... 809
Enamel—filling in broken.....1033
Engine—donkey, pulls self across river..... 252
Engineering—Egyptian feats rival modern works. 403
Engraving—automatic machine used for..... 32
Enlarging Devices—simplifies reproduction of models 769
Eraser—ink, shaped like spoon..... 218
Essences
lemon and orange in powder form..... 472
perfume plant in Florida..... 390
Etching—glass 151
Ethylene—ends winter sleep of potatoes..... 552
Etrog—high-priced sacred fruit..... 575
Excavating Machinery—cellar excavation, novelty in 491
Explosives
harnessing power of..... 643
model of grain elevator shows danger of dust combustion 808
Otira Railway tunnels used tons of..... 777
rock dust prevents explosions..... 566
Explosives: (Continued)
safety powder for blasts in mines..... 948
Exposition—British, arts of empire shown at Wembley 210
Eyelet—fastener, cuts hole and rivets eyelet.... 819
Eyes
eyeshades like lashes shield against sun and sand 903
gold-coated glasses admit light but halt glare 949
weak, cost taxpayers millions yearly for school children 754

F

Fans
exhaust, unusual 313
keep dust from carburetor..... 602
overhead, tightening guy wires..... 846
Farming—crop reports by radio pay the farmer.. 672
Fashion
dress designing taught in schools in United States 547
fads and fancies of beauty..... 274
hats, displays styles of next century..... 101
horses' tails used for trimming hats..... 648
oddly decorated parasols 641
paper dress models, of fashionable gowns.... 225
picture worn in shoe buckle..... 400
Fear—childhood terrors, cure sought for..... 794
Fence Posts—steel 330
Fertilizers
manure, liquid, distributing over field..... 653
peat tried as plant food to cut high cost of fertilizers 100
Files
bench filing machine..... 655
filing boxes made from old book covers..... 336
moving platform for bookkeeper..... 566
Finger Prints
national crime bureau files..... 736
pictures by telephone, criminals captured.... 573
Fire Apparatus
extinguisher, chemical, indicator shows efficiency 820
high-pressure, portable pump..... 534
ladder, eighty feet long..... 594
motor pump to fight timber fires, carried by two men 777
passing of fire horse..... 442
pump fights fire and sprays..... 593
Firearms
pistol hidden in auto lever..... 754
removing bullet from guns..... 695
Fire Engines
fire engine, abandoned, oil refining plant uses 800
motor-driven, many uses of..... 820
Fire Protection
asbestos suits for oil fire fighters..... 733
fire engine moves traced on map..... 784
fire escape wound on reel..... 578
fire nozzles on top of skyscraper protect building 463
gas-well fires put out with snuffer..... 959
traffic light gives fire alarm and tells engine route 992
Fireplaces—open, reducing hazards of..... 846
Fireproof
lime and sawdust blocks resist fire..... 718
paint 904
wallboard of mixed minerals..... 987
Fireworks—painting the sky..... 19
First Aid—adhesive tape, making it stick..... 526
Fish
bass prove to be good fathers..... 361
electricity keeps, from death in canals..... 765
Japan leads in fishing industry..... 583
making use of sharks..... 636
one hundred and fifty species belong to shark family 600
rooster fish caught off Mexican coast..... 13
sawfish, fifteen-foot, caught after battle..... 641
sea lions shot to preserve fish..... 197
sounds produced by..... 748
world's yearly value of..... 710
Fishing
bait bottle, keeps supply alive..... 552
clamp holder aids in scaling..... 73
fisherman, back and foot rest for..... 514
landing net, novel..... 513
polishing trolling spoons..... 703
Flashlight—pocket, folding legs on 12
Flavoring Extracts—alcohol used in making flavoring extract, substitute sought for..... 543

Flies
Japan school children paid to catch..... 573
natural poison for..... 168
Flooring—wedge-shaped tongue and grooves, economy of 266
Floors
floorboard, sunken, drawing up..... 168
floor covering, liquid..... 73
Florida—perfume plant in..... 390
Flour
Uncle Sam bakes bread to test..... 939
whole wheat bread made directly from wheat 957
Flowers
cut, sugar in water adds to life of..... 459
models of, pupils taught by..... 743
orchid growth hastened with salts and sugar 285
poppies, how to keep awake..... 234
preserving in glycerin..... 687
roses, prize, paper umbrellas shield..... 623
Food
America leads in use of meat and eggs..... 588
flour and rock made from eggs of goat fly.. 641
ham told by smell..... 770
laws, federal, violations of..... 740
roadside barbecue for motorists..... 417
vitamine discovery may lead to synthetic food 52
Foot and Mouth Disease—disinfecting troughs for autos 263
Forest Fires
lives and property lost by..... 609
motor pump carried by two men..... 777
nearly 35,000 in year..... 603
Forests and Forestry
drain greater than growth..... 53
field for skilled workers in..... 256
logging taught by miniatures to forestry students 434
timber crops to replace nation's trees..... 259
Forging—protection against 589
Fossils—point way for modern mining..... 605
Fountain Pens—saving ink in..... 173
Fountains
electric humidifier 433
electric, light socket runs..... 119
table, how to make..... 505
wash, ten persons served at..... 449
Fox (ship)—model of United States Destroyer.. 573
Frangestan (ship)—afire at sea..... 409
Freezing
glucose for auto-freezing solution.....1000
non-freezing dish for poultry..... 843
Fruit Culture
ants raised to aid..... 355
emulsion for spraying..... 491
Fruit Industry
America's yearly import of bananas..... 884
bananas consumed in the U. S. A..... 941
sacred "etrog," high price of..... 575
Fruits
Chinese peaches one pound in weight..... 69
Fuel—leaves made into paper and fuel..... 193
Fulton, Robert—statue saved from wreck of station 956
Funnels—spout, flexible, serves as funnel for gas or oil 799
Furniture
breakfast nook consisting of a table and two chairs 526
built-in 1012
for porch 78
newel post for storing umbrellas..... 863
repairing dents in..... 861
vanishing, fixed on door..... 980
without nails made by boy..... 958
Furs
rabbit ranch in apartment house..... 429

G

Games
aerial polo played with balloons..... 375
bowling, ball polisher and protector..... 634
boxing gloves on ends of stick, sailors use... 721
horseback riding, etc., on ocean liner..... 929
latest, brought from Orient..... 13
maj jang players, Chinese, rival Europeans.. 31
play horseshoe "pitch" with cards..... 291
tennis court kept dry by means of folding cover 538
Garages
combined garage and boathouse.....1003
doors that roll overhead..... 389
doorway, three-door arrangement of..... 351
made from warship funnel..... 64
novel floor 508
Garages: (Continued)
of concrete casting..... 600
single car, making larger..... 695
skyscraper solves parking problem..... 565
storage space, increasing..... 522
Garages—Equipment and Supplies
brush operated by motor for removing carbon 803
frames for tilting autos on side for repairing 895
locks for 315
one-man engine stands 291
removing lugs from storage batteries..... 659
Garden Tools and Appliances
carrying brush, canvas sheet for..... 159
garden hose, easy method of storing..... 350
rake and hoe combined..... 30
simple pulverizer 173
Gardens—porch-rail hedge 695
Gas
holder, waterless, million cubic feet capacity.. 583
safety gun for lighting..... 209
saving 174
Gas and Oil Engines—single-valve, reversing.. 829
Gases
carbon-monoxide poisoning 342
deadly war gas, ornaments made of..... 214
hospitals use chlorine and mustard gases... 353
war gas used to kill rats..... 410
Gas Masks—postal clerks to wear..... 794
Gasoline
removing water from.....1041
stations, automat filling..... 424
Gates—mail box and gate post combined..... 334
Gauges
drilled holes, depth of..... 330
for balloon tires..... 63
gasoline, homemade 876
height, auxiliary finger for..... 146
liquid in can, disk and metal bar show..... 794
oil gauged with steel tape..... 123
surface, homemade 872
temperature of heated cylinders or rollers, instrument measures 736
volt tester, electrician's, in handy case..... 734
with handle and lock clamp for measuring holes 974
with scales aid accuracy..... 636
Ghosts—scientists rout "ghosts" from machine to study nature of light..... 368
Gland—broken, substitute for..... 480
Glass
carrier, handy 329
cementing to celluloid..... 522
circular cutter 323
colored wigs of spun glass..... 601
etching 151
gauge glasses, cutting on lathe..... 842
glass and pottery drilling..... 324
glass kidney may save lives..... 534
graduates, repairing 836
heat-resisting, light rays bent by..... 401
industry, automobiles use half of output..... 432
made to stop bullets, will not break..... 424
patients treated with oxygen in sealed glass room 356
scalloping tool for plate..... 862
unbreakable, art of, revived in Germany..... 255
Gliders—in air nine hours..... 959
Gloves—tailoring leather for gloves..... 921
Glue
holder for glue pot.....1015
silicate of soda as..... 841
Goat Fly—flour and rock made from eggs of.... 641
Goats—dairy run by women..... 291
Goggles
auto, eyes shielded by..... 648
serviceable welding 141
Gold
mercury turned into gold..... 802
seekers revive camps of forty-nine..... 236
world's gold flowing to America..... 913
Goldplating—portable tank for..... 795
Golf
balls marked to aid players..... 289
club with adjustable head..... 719
holder on table simplifies cleaning of clubs.. 226
night golf with luminous balls played on lighted course 884
pocket tee 875
practice at sea.....1015
practice net 466
Gophers—pocket, soil enriched by..... 32
Grapes—seeds and skin converted into oil and stock food 200
Grass—growing by electricity..... 891
Grasshoppers—Chinese mantis to combat..... 257

Greathead Shield—oldest electric tunnel extended with boring shield 360
Greenland—sheet of ice covers 197
Grinders
ball-bearing disk grinder 844
getting the most out of the grinder 1045
rule to follow when grinding milling cutters. 1050
Grinding and Polishing—coke dust substitute for emery 252
Guns—safety of shotgun depends on skill in making 956
Guns—Ordnance
battleship crews guided in target practice by clocks 112
direct fire by means of prisms 553
heat method of removing bushings and linings of guns 604
monster, has removable trucks for use over railroads 718
Panama, has thirty-five mile range 265
toy balloons help in aiming big guns 467
with 300-ton barrel for Boston Harbor 277
Gutters
anchors for, made from telephone wire 694
for small buildings 160
Gyroscope—yacht held steady as a liner by stabilizer 910

H

Hair
colored wigs of spun glass 601
horses bred for hair for violin bows 541
horses' tails used for trimming hats 648
Hairpins—bobbing spells doom to tons of 113
Hammers
head, keeping on tight 862
non-slipping handles 661
Handles
comfortable machine handle 492
extension for machine handle 842
non-slipping hammer handles 661
pail handle, sheet-metal 870
Hangers—wind-proof 344
Harpsichord—ancient parent of modern piano ... 400
Harvesting Machinery—binder hitch for small tractor, adjusting 476
Hatchet—unbreakable, has handle in one head ... 601
Hats
horses' tails used to trim 648
lone chimney-sweep wears tall hat 396
Panama, rings in crown reveal quality of .. 292
paper hat parasol for men 912
Hawaiian Islands—cracks in earth caused by earthquakes 409
Hay—hayloader timesaver 519
Hayrack—ladders, folding 508
Health
school children paid in Japan to catch flies .. 573
tropical exhibit at Wembley shows war on disease 575
world's, fifty-four nations join in fight to safeguard 578
Heart
patient hears own beat 592
throbs, radio carries to physicians 495
Heat
billion dollars' worth wasted every year 466
building material display show insulating properties 617
Can you tell hot from cold? 636
in earth suggested to utilize 633
instrument for measuring 463
man's endurance of, set at ninety degrees 431
of breath able to release power to lift tons .. 888
wasted, goes up chimneys 593
Heaters
electric coal burner saves fuel 927
electric, made from auto parts 703
water heater for contractors 1033
Hedges—porch-rail hedge 695
Helicopter—designer wins prize by flight 356
Henry, Beulah—inventor of 47 patents 781
Hermes (warship)—aircraft mother ship 284
Heroes—collie awarded medal for saving life 583
Hoists
brake for hand hoist 1046
electric, making a small 137
hoisting tower on auto 948
towers built on ground raised by derricks on tractors 226
Holders
broom and brush holder 702
for acid pans 314
for glue pot 1015
for shaving brush 1017
Holders: (Continued)
holder on table simplifies cleaning of clubs .. 226
portable rigid holder for typewriter 351
rod holder for welders 828
sliding, for round work 652
spring clip for gasoline hose on tank wagon .. 1049
Hollywood, Calif.—hillside dwellers have community elevators 609
Hook—knotless, holds rope without tying 54
Hopper—refuse, for fruit screen 321
Horological Institute of America—watches broken up by Uncle Sam to test skill of repairers .. 912
Horse (mechanical)—of steel, of heavy carrying capacity 820
Horse Racing—derby crowds controlled by radio. 671
Horses
blind, lifted from ocean with block and tackle 240
collies trained to pull with pony 919
race, stable on wheels speeds to track 588
specialist pulls teeth 602
tails used in trimming hats 648
tests measure pulling power of 234
valuable race, liners provide luxuries for 734
Hospitals
child welfare, country communities served by 647
library on wheels serves hospital 634
pump, electric motor, aids 801
supplying blood to hospitals 809
Hotels—housekeeping on gigantic scale 950
Household Devices
apron, stringless, waterproof 460
baby carriage, two-wheeled, folding 111
baby cart, folds up 988
baby cradle for travel 286
baby swing, portable 460
bandeau, silk, for bobbed hair 460
bath room and dressing cabinet combined 989
beater, egg and cream, run by faucet 639
belt and purse combined 287
breakfast nook, spacious 526
brush cleaner holds liquid in top 988
can opener cuts with revolving disk 989
can opener with ratchet wheel for all sizes of cans 460
canvas seat converts chair into high chair 639
card table, umbrella-shaped 638
catch basin for sink 814
chair seat, attaches by crossbar 639
cleaner, bottle-shaped, for stains, etc. 461
clips for dress hangers 286
clothes-brush bristles flattened 286
combination fuel-saving oven for any type of stove 814
combination holder and glass dishes saves space 461
combination square saucepan, cooks four articles at one time 461
combination table and benches fold into cabinet 639
curtain rods, adjustable 638
cutter quarters fruits and vegetables 287
dish drier and drainer for small kitchen 287
dishwasher, electric revolving 110
double boiler, electric 988
electric heater for any oven 461
electric light with outlet current cord 111
electric switch wall bracket 111
electric toaster 110
fireless cooker and electric range combined .. 111
floor waxer, a canvas bag weighted with shot 461
floor waxer like carpet sweeper 287
flower pot, a hollow drain tile 638
folding scissors with collapsible finger grips. 814
fuel box for kitchen 460
glass holder, rubber, can be attached anywhere 989
handle for hot plates, pronged 815
hanger for clothes and hats, can be extended 814
hose reel, portable 460
houses, latest, beauty and utility combined in 243
ice-cream freezer run by motor with automatic stop 988
iron, electric, folding legs support for 461
ironing board and broom closet combined ... 286
jardiniere with wick 110
jelly-strainer holder 287
kerosene swab for starting fires 286
kitchen cabinet with stove combined 638
kitchen memorandum, spool-shaped 110
kitchen stool easily taken apart 111
kitchen table with adjustable swinging seat .. 815
knife for corn, saw-like 814
milk-bottle collar and chain carrier 989

Household Devices: (Continued)
mud scraper, pitchfork-shaped..... 815
necklace of flower-shaped beads..... 110
nursing bottle can be attached to crib or buggy 461
nursing bottle, rubber..... 287
potato masher that flakes..... 639
radiator, hot water, hiding..... 516
range, electric, automatic control..... 638
refrigerator makes its own ice, for family use 638
scraper for vegetables and fish, fits on finger 639
scrubbing device ironing iron..... 286
seesaw, small, operated by hand..... 989
sewing basket can be folded..... 286
shaving-brush bracket holder of glass..... 814
shoe-shining stand can be attached to wall.. 988
shoe trees with hanger attachment..... 638
skewers replaced by aluminum pins..... 815
sleeping robes, chamois lined..... 988
smoker's stand cannot tip over..... 111
spoons and forks with distinct shoulders..... 639
spray nozzle for hose with anchor rod..... 287
stairs, disappearing, space saved by..... 247
tables, half round, space conserved by..... 343
thimble with thread cutter attached..... 815
turntable, space in homes saved by..... 253
vacuum cleaner, portable..... 989
vanity-case searchlight 111
waffle and pancake combination iron..... 815
washboard, all-metal 814
washboard of rubber..... 460
washing machine, coin operates electric switch 110
whisk broom, small, fits in pocket..... 815
Household Repairs—closet-tank, repairing 170
Houses
bungalow, folding 811
bungalow, weatherproof, built of newspapers 795
Filipinos build in tree tops..... 23
folding dining room..... 752
glass, expectations of scientists..... 45
new, built to look like old..... 785
rammed earth lowers cost of..... 839
Hudson River—suspension bridge across..... 431
Humidifiers
electric 433
fits in cigar box..... 251
Humor—laughter and jokes, predict death of.... 743
Hunting
hunter, armored suit protects..... 783
night, spotlight for..... 523
Hydroelectric Power
eighty-mile river run into funnel..... 710
electricity, harnessing water giants..... 766
Muscle Shoals, what it means..... 293
over the mountains with white coal..... 960
Hydrometers—using 130
Hygiene—workers aided by artificial temperature 946

I

Ice
detachable running board ice box..... 348
drip pan for ice box..... 350
jams, river bombed by army planes to break up 118
leaves used to make..... 374
machine for tourists..... 459
serves as concrete in sinking shaft..... 368
snow stored in earth converted into..... 741
Ice Cream
making of 70
vender on motorcycle..... 395
Ideas
prizes offered for.....1, 177, 451, 625, 877, 1053
Incubators—egg-hatching cabinet 175
India—royal coach of India replaced by auto.... 537
Industry—keeping army busy during peace time aiding industry and agriculture..... 554
Infants—support for baby.....1017
Information Bureau—mail bag.....352, 528
Ink—river of ink found in Africa..... 607
Inkstand—president's, made from horseshoe..... 376
Inlays—wood inlays, replacing..... 490
Insanity—cure, fear tests to aid..... 740
Insects
arctic's, nearly half shown in one box..... 747
around electric lights, fly paper used to catch 348
bugs, heavy loss caused by..... 223
Chinese mantis, to combat grasshoppers..... 257
life of grub of beetle thirty years..... 709
metal boring, phone companies troubled by. 642
Insulation—cost reduced by interlocking hollow bricks 544
Insulation Heat—wool-like material made from wood for insulating..... 416
Insurance—showers on holidays raises insurance rates on fine clothes..... 592
Inventions
chance leads to useful discoveries..... 470
laboratories, inventors' ideas tested for safety 821
Inventor—woman, forty-seven patents granted to 781
Iodine
removing stains of..... 870
swab, simple 139
Iron
ironwork, painted, applying powdered cork to 843
non-magnetic cast iron being produced in England 1047
stainless, may replace steel..... 263
Irrigation
by means of towerless windmills in China.. 927
homemade field sprinkler.....1042
land to be reclaimed by rain trees..... 595
Ivory—discolored, turpentine, restores whiteness of 175

J

Jacks
automobile emergency 692
lumber, adjustable 314
Japan
art race in park tests pupils' skill..... 564
leads in fish industry..... 583
mock duel shows art of self-defense..... 235
school children paid to catch flies..... 573
Japanned Ware—how to clean..... 513
Jesus Christ—head of Saviour embroidered..... 809
Jewelry
bird egg, rivals amber..... 10
hard coal as substitute for jet..... 273
Jigs—for cutting slots in square shafts..... 834
Joints—universal, inexpensive 837
Junk—fortunes found in..... 773

K

Kennels—dog's house with electric comforts..... 97
Kitchen Cabinet—built in outdoor cabinet will fit any window..... 584
Kitchen Utensils
cream whipper run by water from faucet... 116
grater and slicer combined..... 112
knife and fork combined for one-arm persons 120
toaster, asbestos, has metal grid..... 115
Kite—making a military box..... 171
Knives
bench knife from broken jackknife.....1032
safety blade used as..... 770
Kuns, Ray F.—converting touring car into sedan 688

L

Labels—large numerals cut from calendars make excellent 170
Labor-Saving Devices
by means of electricity..... 975
low cart with seat for stencil clerks..... 147
Ladders
folding shelf for..... 156
holding on tile floors..... 516
orchard 342
safe ladder for silo.....1036
scaffold, portable 826
Lamp Shades
in forms of birds and animals..... 391
wire-covering tape simplifies making of. 91
Land—acres taken from Lake Michigan to make park for Chicago..... 402
Lanterns
portable stand for..... 335
protecting building operation lanterns..... 659
wagon, bracket for..... 336
Laps—making small laps.....1036
Lathes
carriage-spacing attachment for..... 121
centering work in..... 155
drill press made from watchmaker's drill... 524
getting the most out of..... 662
making use of small cone bearings.....1052
radius turning tool.....1040
setting a steady rest..... 660
spring toolholder for the lathe..... 658
Laundry
clothespin bag hung on line..... 97
washdays of world..... 398
Lawns—resodding 167

League of Nations—fifty-four nations join in safeguarding world's health 578
Leather
belt dressing, beeswax and neat's-foot oil make 830
cementing to iron 827
split, stronger than grain tests show 95
tailoring for gloves 921
Leaves
made into paper and fuel 193
preserving leaves in specimen book 1015
used to make ice 374
Lee, Robert E.—twenty can sit on hat of statue of 733
Lenses
cap, hinged 861
light rays bent by heat-resisting glass 401
magnifying, worn like spectacles 566
Leprosy—tree for treating cultivated in U. S. 747
Levers—plate steel, making 660
Liberty Bell, Alabama—village laid out in shape of bell 987
Library—on wheels serves hospital patients 634
Lifeboats
hung near water's edge, launching made easy by 633
lightweight, for seaplanes 376
Life Saving—policemen swim in full uniform in stunts 895
Life-Saving Apparatus—lever release for launching lifeboats 986
Light
hens lay better under influence of 415
light rays bent by heat-resisting glass 401
movie actor's eyes guarded by helmets against Klieg light 400
Lighter
cigar lighter for automobile 18
cigar lighter for auto worked with one hand 258
Lighthouses
is substitute for spire of church 224
Port Said, twenty-four mile range 472
Lighting
building, flood lights on 395
camp lighted by outboard motor 683
pulsated light gives depth to movies 468
save light in Alaska on railways 624
wax produced by insects used for candles in China 910
Lightning
arrester, neat 174
electricity claims more victims than lightning 256
petrified, found in sand 91
Lincoln, Nebraska—capital built over old 273
Linoleum
how to lay 159, 346
replaces auto carpet 1001
various products used in 641
Liverpool—cathedral designed by youth 782
Loading and Unloading
aerial trolleys bring logs to mill 635
automobiles, unloading 669
blower, electric, for loading grain 38
dirt on trucks, novel method of 659
furniture, heavy, moving up stairways 522
pulling motorboat on beach 507
railroad uses compressed air to load live stock 544
sand loaded with conveyor scoop 374
self-loading truck 587
ship tackle tested by loading elephants 640
tipple turns cars over for transferring coal 991
trailer, automatic fifth wheel on, does away with jacks 604
unloading freight cars with detachable steel chutes 940
using hand truck for 479
Lockers
clothes hanger raised to roof by chains to stop theft 95
used in garages 315
Locks and Keys
bicycle lock carried on frame 89
chain reel on belt prevents loss of keys 77
keyless lock for tool cabinet 321
lockless windows for skyscraper 615
million combinations on lock 109
padlock, keyless, worked by figures on movable disks 118
simple methods of opening locks 873
Locomotives
as a dinner decoration 424
electric, 8,000 built by one company 253
high-pressure for freight 624
runs without moving 90
Locomotives: (Continued)
steam, rival electric in pulling power 248
turbine, twenty per cent less coal used by 816
Locusts—steel walls to stop plague of 980
Logging—taught at the University of Wisconsin 434
London
foundation of city shaken by subways 769
lights on towers to cut bill 411
shield on car wheels reduce noise 918
Los Angeles, Calif.—concrete tree trunk as office of realty firm 411
Lost and Found
gold lost at beaches, diving for 439
nut and screws picked up with chewing gum 1044
Lubrication
for bearings 140
lathe-center lubricant 826
oil-absorbing metal perfected 193
pad for oiling typewriter bars 329
places hard to reach 526
porpoise oil for watches 224
Luers, G. A.—getting the most out of the grinder 1045
Luggage Carrier
for roadster 1017
hand bag combined with sample case 782
Lumber and Lumbering
ants work for lumberman 809
lumber used for sewing machines 63
million feet of lumber saved by mechanical pencils 637
spur-clad climber walks up tree and cuts off tops 924
to build fifty five-room bungalows cut from a tree 785
using blue-stained 486

M

Machine Shop—project for vocational course 670
Magnet
rod picks up bolts and bits of metal 949
seven men lifted by 102
Mail Box
and gatepost combined 334
of concrete combines beauty with utility 56
packages protected by 864
Mallet—substitute for rubber 521
Manual Labor—rich and poor enjoy 221
Maps
auto with airplane compass help to map makers 740
earth as island shown by map of Columbus 68
printed on cap lining 595
washable, daily changes recorded on 82
Marine Engineering—school for ship designing in New York 577
Marriage and Marriage Customs—brides, fads and fancies the world over 98
Mars
eggs not boiled on the planet 903
giant telescope in Russia to make observations relating to 575
huge telescope to photograph 397
Masks—air-filter mask for painters 967
Matches—machine cuts wood into 289
Mats
moss matting a substitute for linoleum and cork 926
woven of old auto tires 919
McKinley, Mount—sinking two feet every year 265
Measures and Measuring Instruments
accurate measuring of irregulars 845
automobile equipped with dials and meters to measure roads 735
bottle cap measures dose and tells when to take 783
instrument for measuring growth of trees 402
mirror to measure clouds' speed 624
Mechanical Drawings
gear-tooth template for drafting 654
swinging tray aids draftsmen 666
with short French curve, remedy for 491
Mechanical Powers
Part V., Pulleys and pulley-block systems 142
Part VI., Inclined plane and wedge 316
Part VII., Screw 481
Medicine—bottle cap measures doses and tells when to take 783
Medicine—Practice
hospitals use chlorine and mustard gases 353
patients treated with oxygen in sealed glass room 356
Megaphones—sport fans use special 574

Memorials—war memorial statue in England beautified by powerful electric lights..... 235
Mental Tests
fear tests to aid insanity..... 740
for auto drivers..... 705
Mercury—turned into gold..... 802
Merry-Go-Round—adds to seashore sport..... 355
Metals
electrical prospecting tested in search for metals 433
odor of metals due to gases..... 883
telephone companies troubled by metal-boring insects 642
Meteorites—stones from the skies..... 222
Mexico—the treasure house of the world..... 58
Mica—vinegar for cleaning panels..... 864
Michigan City, Ind.—waterless gas holder of a million feet capacity..... 583
Michigan, Lake—acres taken from to make Chicago park 402
Micropantograph—million words engraved in inch 397
Microscope
pocket, with strong lens..... 905
with scales aid accuracy..... 636
Milk
card box and indicator..... 513
delivery cart 476
from kerosene predicted 68
not soured by thunder..... 577
poured through hole in door to prevent theft 462
Mines and Mining
asphalt rock taken from mine..... 235
caisson drives way to vein..... 116
electric lamps reduce explosions..... 543
electrical prospecting is tested..... 433
fossils point way for modern mining..... 605
ice serves as concrete in sinking shaft..... 368
mine shaft house dynamited when new one is ready 91
miners move village twenty miles..... 374
rock dust prevents explosions..... 566
safety powder for blasting..... 948
students study underground rescue work.... 255
worked-out areas shown by model..... 551
Mint
large, built in China..... 409
world's gold flowing to America..... 913
Mirrors—used in repairing sewers..... 837
Mitman, Carl W.
Part V., Pulleys and pulley-block systems... 142
Part VI., Inclined plane and wedge..... 316
Part VII., Screw 481
Models
aids drawing students.....1044
car and ship, boys build..... 575
electric village, toy..... 425
enlarging device simplifies reproduction of.... 769
gingerbread opera helps in study of music.. 251
locomotive model as dinner decoration..... 424
mail box, replica of homestead..... 701
miniature, of San Francisco fair..... 257
model of U. S. destroyer "Fox"..... 573
nature in wax for museums..... 565
of cathedral carved in wood..... 803
of grain elevator shows danger of dust explosions 808
queen's doll house has tiny dishes..... 258
railway, miniature, on private estate..... 545
railway village, model, electricity runs..... 536
statues modeled from memory by crippled children 263
teaching by means of model flowers..... 743
whittling contest to try schoolboys' skill.... 55
windmill and rose jar of sugar..... 32
wood carver makes bird models..... 368
yacht modeling teaches seamanship..... 983
Moles—lye in runways controls..... 369
Money
automatic coin changer, counterfeit money detected by 785
world's gold flowing to America..... 913
Moss—matting 926
Motion Picture Photography
arrow thriller made by turning camera backward 957
eliminates static..... 139
when the movie camera won't lie..... 969
Motorboat
carried into wilds of Alaska by ship and rail.. 637
motor, outboard, testing tank for..... 870
Motorboat Engines—outboard motor, gasoline tank for 515
Motorcycles
driven by propeller..... 33
ice-cream vendor on..... 395
made into ambulance..... 640
Motorcycles: (Continued)
single-wheeled motorcycle carries rider in rim. 918
speed king drives on side of wall..... 38
Motor Trucks
gospel missions from..... 285
race horse's stable on wheels..... 588
self-loading 587
steel rack for lumber..... 150
truck driven forward or back with equal ease 121
Mount Everest—new climb to conquer..... 889
Moving Pictures
actor's eyes protected by helmets..... 400
drawing animated cartoons for movies..... 611
film, daylight, runs automatically..... 265
how animals are turned into stars..... 24
lip reading taught by..... 635
moves in ball game shown on screen..... 966
movie faces revealed by tape measure..... 117
movie in home, forecast of inventor..... 127
music the soul behind the movies..... 412
pulsated light give depth to..... 468
rain made with street sprinkler tank..... 69
skill of moving-picture engineers..... 201
Mowers
craft cuts river weeds..... 974
one-man grader cuts grass along highway.... 770
Mucilage
cementing leather to iron..... 827
envelope sealer, water held in handle of..... 119
making adhesive tape stick..... 526
Mules
American mules for Germany..... 635
making a kicking..... 331
Muscle Shoals—what it means..... 293
Muscular Power—girl laid on spikes unharmed by blows from hammer..... 266
Museum—animals turned into stone by liquid for specimens 551
Mushrooms—dried, important export of Poland... 793
Music
gingerbread opera helps in study of..... 251
rack turns sheets as player presses pedals.... 224
study turned into game..... 592
the soul behind the movies..... 412
twenty-seven centuries old on tablet..... 917
Musical Instruments
banjo, heads kept dry by electric lights..... 13
Javanese, made of bamboo..... 62
"jazz" effects produced with steel hand instrument 291
music-roll boxes with hinged ends..... 743
one-man "jazz" band..... 218
orchestra, one-man, has xylophone, cymbal and chime attachments..... 257
piano with quarter-tone notes, jazz effects of 623
saxophone key pad held by button..... 61
tones of woman's voice produced by..... 537
violin, change in construction results in better tone 222
violin combined with two horns has unique tone 115
violin, ukulele and mandolin combined..... 282
violin with horn for sounding box..... 578

N

Nails—straightener 652
Nameplates—stamping 322
Natatorium—flying rings over pool is sport for swimmers 289
National Academy of Science, Washington, D. C.—science wonders shown in..... 427
Naval Warfare
British fleet outlined in lights in first pageant since war..... 975
guns of U. S. fleet, how trained on targets... 419
phantom ships aid naval gunners to perfect marksmanship 909
Navigation
charting waters of the frozen north..... 796
undersea survey of gulf may aid in forecasting weather 957
Needles
phonograph needles, bar magnet for picking up 100
sewing kit, pocket, proper needle selected by.. 76
Nets—novel landing net..... 513
Neurology—voice pictures for the study of nerve affections 467
Newark, N. J.—memorial sculptured by Gutzon Borglum for Military Park..... 200
New York City
bust of Woodrow Wilson in Devoe Park..... 593
city water supply pipes doubled by eleven feet 616
telephone wires run through city tunnel..... 546
Niagara Falls—engineers show skill in bridging.. 542

Noise
casters of fabric noiseless..... 376
curbed to benefit health..... 82
loudest, deafens persons ten miles from..... 464
shields on car wheels reduce noise..... 918
North American Indians
skull studied to trace origin of..... 34
world contest in design inspired by native American art..... 419
Nut (mechanical)—lost, mechanic makes one..... 485
Nut Cracker—black walnut, produces uncrushed halves 428

O

Obelisk—never raised 220
Ocean—current, sought with sea thermometer.... 375
Odors
of metals due to gases..... 883
removing odors from ice box.....1000
Office Supplies
bookkeeper, moving platform for..... 566
celluloid keeps report sheets clean.....1049
huge pencils cannot get lost..... 603
sealer, broadside, electrically operated..... 648
swinging tray aids draftsmen..... 666
Ohio—prisons run scores of industries..... 752
Oil—from African butter tree, natives use..... 101
Oilstone—box, dirtproof..... 146
Oklahoma—oil well produces pure asphalt..... 472
Opera—painting scenery for..... 744
Optical Illusions—toy provides..... 520
Oranges—pipe, huge, formed of..... 781
Orchards—ladder for..... 342
Orchids—growth hastened with salt and sugar.... 285
Organs (musical)—pitless, motor-operated screws raise 720
Ostrich—does not hide head in sand..... 276
Otira Railway—consumed tons of explosives..... 777
Outboard Motor—camp lighted by..... 683
Ovens
camping oven, double-walled..... 425
clamps on automobile..... 748
Overalls—transparent, saves dresses..... 439
Oxyacetylene Flame—cutting tip preheats gas.... 121
Oxyacetylene Welding
acetylene flame shield..... 827
skyscraper built without rivets..... 541
Oxygen
patients treated with oxygen in a sealed glass room 356

P

Pail—for filling radiator..... 687
Paint
cleaning paint on engine..... 834
fireproof paint saves building..... 904
for radio cardboard panels and coils..... 494
how to clean varnished and stained woodwork 161
improved roofing paint..... 167
stains on hands, remove with lard..... 700
Painting
air-filter masks for painters..... 967
opera scenery..... 744
safety pot for..... 329
working from brush on wire mesh..... 829
Paintings
oil, method sought to save from fading..... 73
pictures, bogus, lights reveal..... 37
Palestine
excavations reveal new light on..... 466
ruins unearthed bear out Bible stories..... 194
Panama Canal
guard gates used as bridges..... 320
gun has thirty-five mile range..... 265
U. S. ships carried one-half tonnage through. 553
what it means to you..... 749
Pantograph—million words engraved in inch..... 397
Paper
hat parasol for men..... 912
leaves made into paper and fuel..... 193
made from cotton products..... 910
papyrus, source of ancient paper..... 534
prize roses shielded with paper umbrellas.... 623
razor strop of folded newspaper..... 623
weatherproof bungalow of newspaper..... 795
Paper Money—counterfeiting checked by vivid hues of 391
Paper Weight—automatic lighter handy as..... 439
Papyrus—source of ancient paper.....534
Parachutes
airplane parachutes save lives..... 535
arrow parachutes 1011
Parasols—summer, oddly decorated..... 641
Paris—painters risk lives in working on Eiffel Tower 742
Parks
acres taken from Lake Michigan to make... 402
lake turned into land to aid..... 737
Paste
keeping from souring..... 322
passe-partout binding to paste to check-book stubs 526
Patents—fourth U. S., was signed by Washington 776
Paving—rubber, streets made noiseless by..... 816
Peanut—harvester, horse-drawn..... 433
Pearls
alcohol and French chalk for cleaning..... 874
fortunes won by deep-sea seekers for..... 233
parasites form the nucleus..... 910
Peat
fields turned into profit..... 74
tried as plant food to cut high cost of fertilizer 100
Pencils
banana fiber substitute for graphite..... 362
huge, cannot get lost..... 603
million feet of lumber saved by mechanical... 637
Pens
draftman's, used as tweezers..... 321
drawing pen cleaner.....1036
oldest known, scientists find..... 640
stylus, steel ball, will not tear paper..... 80
Perfumes
perfume plant in Florida..... 390
supply periled by ban on killing musk deer... 958
Pests
bean beetles spreading north..... 809
birds aid man in war against insects..... 610
getting rid of chinch bugs.....1043
lye controls the mole..... 369
searchlights end moth plague..... 928
steel walls to stop locusts..... 980
sure method of catching field rodents..... 685
Petrifaction
animals turned into stone by liquid..... 551
fifteen forests found, one on top of the other.. 574
Petroleum
beneath Polar snows..... 597
oil pools, freak shadows in..... 277
oil refinery on wheels..... 188
plants, fossil, aid in finding oil..... 647
wells, mile deep, old days holes replaced by.. 39
Phonographs
carried in vanity case..... 603
listening alone to..... 162
typewriting taught by phonograph..... 196
Photography
camera in range finder, miniature,..... 90
close-up, portrait lens used..... 863
film-drying cabinet.....1048
film negative, scratched, coating of vaseline covers 341
homemade monotone glass..... 830
photographers, amateur, cabinet for..... 159
photographic power of wood..... 440
photographing tracings..... 478
photographs of electrical disturbances, secrets revealed by..... 56
photographs sent over telephone wires..... 187
preventing ferrotype prints from sticking.... 521
printing masks for the amateur..... 685
revolver "shoots" pictures..... 967
spectacle lens aid photographer..... 155
stationary focusing cloth..... 869
Photography—Aerial—airplane, six miles high, city photographed from..... 192
Photography—Apparatus and Supplies
lamp, ruby, made from pocket flask..... 584
lens shade and ray-filter holder..... 696
Photography—Developing
portable darkroom, a hood..... 947
washing tank for films and prints..... 311
washing tank for roll film..... 509
Physical Training—ride on stationary bicycle tests muscles 940
Pianos
ancient parent of modern piano has strings plucked by quills..... 400
with quarter-tone notes for jazz effect..... 623
Piano Players (mechanical)—push-button, eight rolls played by..... 390
Picture Frames—made of cardboard..... 876
Pictures—pocket movie machine..... 415
Pigeons
breeding, hobby of many Americans..... 218
pigeons defeated in race with airplane..... 355
Pine—leaves made into wool..... 720
Pinion—starter, preventing sticking of..... 149
Pipes—cleaning tee for furnace smoke pipe.....1002

Pipes (tobacco)—huge formed of oranges..... 781
Piston Rings—filing..... 661
Pistons
hand tool regrooves..... 122
turning on centers..... 146
Planets—Jupiter and Mercury compared..... 755
Plans and Planning—worked-out areas shown on model mine..... 551
Plants
heads turned toward sun light..... 225
leaves used to make ice..... 374
plant life in wax for museums..... 565
Plaster
plastering machine, one-man, does work of eight men..... 96
wheeled platform for plasterers..... 662
Plating—portable tank for goldplating..... 775
Plows—manless automatic tractor plow..... 924
Plywood—using plywood.....1002
Pogo Stick—walking stick, combination of stilts and pogo stick..... 335
Poison—lives saved by glass kidney..... 534
Poland—dried mushrooms important export of.... 793
Poles—long, transporting by rail..... 662
Police
beating burglar at own game..... 896
six planes added to equipment of New York police..... 784
swim in full uniform in life-saving stunts.... 895
Polishing
automobile headlamps, cleaning..... 518
stand for polishing tubular parts..... 492
substitute for metal polish..... 172
Politics—political spellbinding by radio..... 879
Polo
"aerial," played with balloons..... 375
wooden horses help army cadets learn to play 586
Popcorn—keeping the pop in..... 474
Poppies—how to keep awake..... 234
Porpoises—oil for matches obtained from..... 224
Port Said, Egypt—twenty-four mile range lighthouse at..... 472
Porto Rico—war gas used to kill rats..... 410
Postal Service
bees shipped by mail..... 576
lost letters, cost over million yearly..... 610
mail bags, armored..... 108
mail boxes in gateway column is colony's post office..... 775
mail clerks, skill of..... 800
masks, gas, mail clerks to wear..... 794
mimic train robbery tests mail car..... 884
Postcards—with flap, time saved by..... 799
Posts
post-hole auger, serviceable..... 652
quick-acting puller..... 835
Potatoes
as substitute for soap..... 120
ethylene gas ends winter sleep of..... 552
ventilation keeps in good condition..... 870
Pottery
art of Incas lives in..... 50
glass and pottery drilling..... 324
molded like clay from metal..... 919
Poultry
cheaper for poultry keepers to buy grains....1018
chicken raising for young women, French recommend..... 106
chicks, ten thousand in one hatch..... 45
convenient window for poultry house..... 513
how to make a fireless brooder.....1031
non-freezing dish for..... 843
poultry club, boys'..... 288
separator, weight of egg unlocks door of..... 820
statue of rooster as emblem of town..... 917
Precious Stones—emeralds and rubies valued more highly than diamonds..... 799
Preservation
animals, liquid turns life-like into stone..... 551
life of poles, etc., lengthened by chemicals.. 777
preserving leaves in specimen book.....1015
Printing
million words engraved in inch..... 397
on round objects, machine for..... 434
ticket printer for stores..... 649
type, set from typewriter..... 819
Prisms—gun fire directed by means of prisms.... 553
Prisons—score of industries run by prisoners..... 752
Prize Offers
for new inventions....1, 177, 449, 625, 877, 1053
Prohibition—liquor hunt, heart tester helps in.... 62
Pulleys
and block systems..... 142
heavy, easy method of turning..... 313
loose roller bearings for..... 148
Pullman Cars—how named..... 943
Pumps
electric motor pumps for feeding the sick.... 801
fights fires and sprays crops, attached to tractor..... 593
hand, made from auto oil pump..... 521
hand tire pumps, repairing..... 168
portable high-pressure, effective fire protection 534
pumping water, light truck used for..... 141
Pumpkin—ten dozen pies made from one..... 116
Purses—woven wire mesh bags..... 909
Putty—how to lay evenly..... 156
Puzzles—amusing..... 864
Pythons—sold by length.....596

Q

Quartz—light rays bent by heat-resisting glass... 401

R

Rabbits—ranch in apartment house..... 429
Radiator
hiding hot-water radiator..... 516
hose, for filling automobile..... 841
Radio
Australian sets are sealed..... 310
baseball officials use..... 125
industry growing..... 504
making electricity speak..... 307
manufacturers, distributors and jobbers of radio in U. S..... 297
message takes less power than flashlight.... 126
passing the plate by radio..... 858
size of shields..... 849
small rotary spark gap.....1030
soldering wire to contact screws..... 848
stations logged on dials..... 298
theater patrons being entertained before show 128
unusual weather conditions not fault of radio1027
Radio Antennae
aerial kinks..... 849
balloon aerial..... 1021
novel window-shade antennae..... 299
one for several sets.....1020
preventing grounding in heavy rains..... 128
Radio Apparatus
amplifier for ultra-audion receiver..... 857
battery tips.....1030
clips for connecting phones..... 849
cold-water pipes make better grounds than radiators.....1021
connecting B-battery switch.....1021
French engineers produce loud speaker.....1030
girl fan builds smallest loop aerial..... 849
grid leak, variable, has wide attachments..... 128
headset, testing for sensitiveness..... 298
loud speakers, method of selling..... 504
making phone jacks fit properly.....1021
phonograph loud speaker uses novel principle. 306
phonograph record used as a panel..... 130
protective unit prevents shorts..... 307
radio sets, glass dials and knobs for..... 125
selecting the proper vacuum tube..... 129
self-supporting inductance coils..... 848
switch for both batteries..... 299
tester for filament circuit..... 306
transformer is adjustable for wave length.... 307
transformer sealed in vacuum.....1020
using a C-battery.....1027
Radio Application
beacons to guide airmen..... 298
bloodless surgery with radio knife..... 297
crop reports by radio pay the farmer..... 672
Derby crowds, controlled by..... 671
first radio wedding..... 495
from stage thrills to radio drama..... 993
heart throbs heard by physicians..... 495
"pinch hits" for orchestra..... 299
political spellbinding by radio..... 879
radio aids New York's smallest book shop... 494
radio static used as weather warning..... 893
railroad to dispatch trains by radio.....1021
setting clock by radio.....1021
ship's operators play chess by..... 306
Radio Broadcasting
artists feel lack of applause.....131
broadcasts from ocean's bottom.....1019
Caruso's voice broadcast in 1909..... 849
chorus of 1,000 voices broadcasted..... 125
heartbeats broadcasted..... 129
Italian amateur broadcasts with unusual aerial 130
logging stations..... 858
new method of..... 306
nightingale's song..... 299
talking through your own loud speaker..... 495
telephone connects studio in Boston, Mass. with Springfield, Mass..... 307

Radio **Receivers**
building a honeycomb-coil..... 308
building a portable reflex receiver.....1023
built-in sets for the home..... 680
giant, needs no aerial or ground..... 848
in auto helps sell real estate..... 128
making a push-pull amplifier..... 502
portable, made from camera..... 847
set fits in thimble..... 126
taking receiving set on auto tours..... 126
theatrical star listens in on brief case set.... 125
thirty-cent radio set.....1027
vacation sets, compact and efficient..... 673
Radium
safes and sentries guard..... 616
under concrete walk, electroscope locates.... 357
Raft—one-pole tent serves as..... 711
Railroads
a night run with the Gotham Limited..... 722
automobiles on railway wheels..... 423
carries ship over land..... 357
cattle guard made of cactus.....1035
dispatch train by radio..... 1021
light warns trains of landslides..... 376
mimic train robbery tests mail car..... 884
miniature on private estate in England..... 545
one-third built in quarter of century..... 97
over the mountains with white coal..... 960
Pullman cars how named..... 943
pygmy, does giant's work..... 57
railway junked in eight years, 3,500 miles 391
roving freight cars, railways keep records of 813
trackless train for highway..... 882
Railroads—Brazil—grade of 2,600 feet in seven miles 911
Railroads—Rolling Stock—car, box, eight men build in six and one-half hours..... 389
Railroads—Terminals—passenger station at Chicago nearing completion..... 282
Railroads—United States
use 87,500,000 ties yearly..... 903
scientists assure safety..... 775
Rain
insurance, showers on holidays raise rates of 592
land to be reclaimed by rain trees..... 595
Ranges (cooking)—room, extra, for, in the summer 169
Rangoon, Burma—fire ladder eighty feet long.... 594
Rapid Transit—trains, three-car surface line, in Detroit 256
Rats—war gas, used to kill..... 410
Razors
electric light on..... 199
safety blade stropping..... 669
safety blade used as knife..... 770
Reamer
made to cut oversize..... 829
odd fluted, measuring..... 478
Recreation
barrel revolving on pipe, for playground..... 615
fourteen million spent in U. S. and Canada for 468
Refrigeration
artificial, hundreds of industries use..... 396
drinks cooled quickly with chemicals in glass tubes 462
Refrigerators
ice box carried on running board of auto.... 107
iceless, for camp..... 520
Reservoirs—underground, springs and wells fed by 247
Reynolds, M.—reinforcing corroded steel tower...1041
Riding—wooden horses help army cadets to learn polo 586
Rivers
donkey engine pulls self across river..... 252
of ink found in Africa..... 607
Roadmaking—concrete-curing process makes better roads 63
Roadmaking Machinery
novel method of loading dirt on trucks..... 659
one-man tractor grades, etc. 770
Roads
built of rubber and asphalt, success in Europe 546
mountain road, surveyors locate..... 249
paving made noiseless by means of rubber.. 816
portable highway across desert sands..... 958
roadside scale for weighing autos..... 947
sand drifts prevented on..... 475
Rock Dust—prevents explosions..... 566
Rodents
field, sure method of catching..... 685
mice, field, war on bees..... 23
Rollers—fitting iron rollers into bedsteads..... 514
Romig, J. V.—bench filing machine..... 655
Roofs
coping, double-purpose 486
mother-of-pearl tiles 283
Roofs: (Continued)
novel, lumber economized on..... 492
roof bracket, folding..... 107
shingle holder, nailed to wall or roof..... 521
vulcanizer, electric, leaks in roofs prevented by 803
Ropes
chandelier woven of rope by sailor..... 600
machine for making, worked by hand..... 410
preventing from untwisting..... 158
Roses—paper umbrellas shield prize roses..... 623
Rot—preventing porch columns from rotting.... 348
Rubber
cement for repairing ebonite and hard rubber 335
gloves, rubber, repairing..... 698
helmet for swimmers..... 765
lighter than cork for suits for aviators..... 541
lighter than cork rivals air in expansion.... 276
many uses for old..... 428
roads built of rubber and asphalt, success in Europe 546
Rubbers—non-skid 346
Rugs
blind taught to weave..... 423
woven in U. S..... 819
Rust
cleaning from gun..... 333
gun, protecting from..... 162
iron stains, preventing on buildings..... 315

S

Safes—ancient treasure chest found in old building 987
Safety Devices and Measures
actor's eyes protected by helmet..... 400
air-filter masks for painters..... 967
baby crib serves as guard..... 842
bathers, endangered, better holds and grips aid in rescue of..... 199
collapsible metal air chambers to make ships nonsinkable 884
crossings, triple-deck, protect lives..... 449
electric lamps reduce explosions in mines... 543
flag, metal, clamped to track..... 96
fog alarm runs by human hair..... 101
gold-coated glasses admit light but not glare 949
landslide, lights warn trains of..... 376
lifeboat hung near water's edge..... 633
light, safety, resembles candle..... 470
"lighthouses," land, warn motorists..... 395
mail clerks to wear gas masks..... 794
protecting building operation lanterns..... 659
road culverts, markers for..... 479
rubber suits lighter than cork for aviators... 541
safety powder for blasting..... 948
signal stop, school children guarded by..... 256
swimming vest, puncture-proof..... 418
thieves, petty, foiling..... 515
Safety Movements
balloons, toy, weather bureau stations use to guard airmen 54
inventions tested for safety..... 821
limiting speed of automobiles..... 516
mine engineering students study underground rescue work 255
parade, safety, floats in..... 188
railroad travel safety assured by scientists... 775
testing hearing as a safeguard..... 539
toy figure of policeman serves as traffic signal 733
Safety Vault—and bathtub combined..... 168
Sahara Desert
railroad to bridge..... 721
ruins of Pompeii rivaled in city found beneath Sahara 887
Salesmanship
ice-cream vendor on motorcycle..... 395
store, serve self, on wheels..... 283
tobacco store carried on back of owner..... 200
Salmon, F. W.—Emergency Ejectors.....1037
Salmon—government battle to save from extinction 618
Salt—how obtained from sea..... 587
Salvage
models of sunken liner, divers aided by..... 49
tunnel under ocean to treasure ship..... 253
San Francisco
date book in department store for appointments 905
miniature of exposition..... 257
Sand
sand loaded with conveyor scoop..... 374
stove for drying..... 651
tilting shaker for sand screen.....1040
Sand Blast—soot washed off hotel..... 220

Sanders
floor sander, easily constructed..... 173
floor-sanding machine 473
Sanding Wheel—electric, shipping marks erased by 601
Sandstone—flexible, easily bent..... 402
Saws and Sawing Rigs
cutting slots in small rods.....1049
filing machine operated by crank..... 440
homemade swing cut-off saw.....1050
lubricant, saw blades saved by..... 124
saw, band, several boards cut from one log with 467
saws, circular, homemade..... 487
saw combines miter, square, protractor and level 124
saw runs hundred miles an hour..... 80
sawing circular segments on bandsaw..... 661
spur-clad climber walks up tree and cuts off top 924
Scales
small, made from spoons..... 861
small, made from test tube..... 348
Scoops—handling large grain..... 687
Scott, Giles Gilbert—designs Liverpool cathedral. 782
Scrapers
iron-pipe rail protects shoe scraper..... 692
prolonging life of road scraper..... 327
Scratches—removing scratches from auto.....1003
Screens
and storm-window fastening..... 660
covering frames with wire..... 527
pulling screen wire taut.....1018
Screwdrivers
handy attachment for..... 150
hard places reached by..... 816
novel ratchet 1052
Screws
short head, buffing..... 312
square head, gripping..... 326
Sculpture—enlarging device simplifies reproduction of models..... 769
Sea Lions—shot with machine gun to preserve fish 197
Sea Sickness—oxygen cure for..... 458
Sealers—broadside sealer electrically operated.... 648
Searchlights
end moth plague..... 928
fog-piercing ray to guide fliers..... 918
giant, to aid war on crime..... 363
Self-Defense—mock duel shows Japanese art... 235
Separator—water power made to run..... 654
Sewers—mirrors used in repairing..... 837
Sewing Kits—New York hotel puts sewing kit on dresser 358
Sewing Machines—lumber used by..... 63
Shades
inexpensive window 1016
preventing spotting of..... 158
Shadows
freak shadows in oil pools..... 277
on screens, colored glasses make lifelike.... 67
Shafts—short, centering 328
Sharks—making use of..... 636
Shaving Brush—holder for 1017
Sheep—industry, beginning of..... 357
Sheet Metal—cutting circular holes in sheet metal 1034
Shells—mother-of-pearl tiles 283
Shingles
asphalt, lock bracket holds corners flat..... 36
extra large, cost of laying cut by..... 543
Ships
Britons to refloat German fleet sunk at Scapa Flow 107
built on land is movie theater and bathhouse 733
Chinese junk reaches New York after two-year voyage 595
collapsible metal air chambers to make ships unsinkable 884
cypress ship, "Big Bill," to sail around world 946
drydock, world's largest, "Olympic" repaired in 802
figurehead on clipper ship..... 911
fortune spent in cleaning..... 289
horseback riding and other games on ocean liners 929
Japanese, recalls canvas-rigged craft..... 793
land sailing, air raiders' bombs destroy..... 810
railroad carries ship over land..... 357
repair nose of "Leviathan"..... 222
sailors serve as steeple jacks painting funnels 776
school for ship designing in New York.... 577
square-rigged, passing from seven seas..... 83
Shipwrecks
detectors protect in fogs..... 74
number of last year..... 752
raising from sea bed..... 817
ship, "Frangestan," afire at sea..... 409
ships sunk by ocean monsters..... 795
Shoe Rack—for closet door..... 161
Signs and Signboards
cement guards electric-light sign..... 948
electric, New York merchants use million lamps in 65
mirror signboard at sharp curve..... 888
wind-proof hanger for..... 344
Silk
carried on closely guarded trains..... 742
purse, silk, made from pig's ears..... 608
Silo—safe ladder for.....1036
Silver—photography and currency use most.... 113
Simonds, D. R.—Homemade Typewriter Cabinet 697
Skates
land, ski jumper's feats rivaled by..... 709
roller, three-wheel 18
snow skates for winter sport..... 886
Skipper (water)—monorail, how to make..... 157
Skis—land skates rival ski feats..... 709
Sky—air, frozen, blue sky caused by..... 82
Skyscrapers—gold-plated stones on..... 887
Slavery—white slaves found in Africa..... 711
Sleds—for transporting cordwood..... 480
Sleep—insomnia victims, metal mask aids..... 754
Sleigh—motor, driven by propeller..... 74
Slot Machines
coin in slot machine sells combs..... 992
for cigarettes 883
giant figurehead as slot machine..... 470
Sludge—removed for fuel oil tanks..... 123
Smoke—clean out tee for furnace smoke pipe..1002
Smoke Nuisance—damage from in twenty years.. 793
Smoker's Stand—ash trays made from automobile pistons 519
Smokestack—climbing 684
Smugglers—drug, keep police busy..... 82
Snakes
pythons sold by length..... 596
sea, ship held up by..... 36
Snow—stored in earth sold as ice..... 741
Snowplow—steel claws on 49
Snubbers—for balloon tires..... 533
Soils—puddled, remedy for..... 314
Solder and Soldering
battery corrosion as flux..... 522
for small parts..... 651
how to solder in heavy wind..... 476
radio leads 309
Soot—washed from hotel..... 220
Sounds
lime and sawdust blocks are sound-proof.... 718
shields on car wheels reduce noise..... 918
sounds produced by fish..... 748
South Bend, Ind.—airplane damages roof of house in fall 617
Spain—giant figurehead as slot machine..... 470
Spectacles
eyeglass cleaner, fits pocket..... 425
gold-coated glasses admit light but not glare 949
with square-shaped lenses..... 782
Spiders
spider webs for surveyor's lens..... 108
webs, women's hats trimmed with..... 18
Spokeshaves—made of steel pipe..... 525
Sponge—excellent substitute for..... 174
Sports and Pastimes—flying ring over pool for swimmers 289
Spotlights—for night hunting..... 523
Sprayers
for cleaning and painting, etc..... 919
fruit trees, emulsion for spraying..... 491
metal, molten, sprayed like paint from gun.. 432
pump fights fire and sprays..... 593
Sprinklers
homemade, field 1042
lawn, novel homemade..... 170
Stage Mechanism—footlights for amateur stage vanish under floor..... 466
Stains
clothing, chemicals used to remove stains on 173
removing developer 175
removing iodine 870
tea and coffee, glycerin will remove..... 869
Stairs
space saved by disappearing stairs..... 247
storing umbrellas in newel post..... 863
Stamping Machines—metal numbering machine stamps serial numbers by hand..... 990
Stamps—one-cent, thirty thousand dollars value of 769

Stands
portable stand for lantern..... 335
rack turns sheet as player presses pedal.... 224
Stars—sounds heard from..... 291
Statues
Lee's, twenty can sit on hat..... 733
wax, natural appearance of..... 34
Steam—steam at twelve hundred degrees..... 886
Steel
burnt oil, cleaning off from..... 650
doom of predicted..... 803
framework cut and fitted on site..... 786
microscope reveals crystal hills and vales.... 23
thin, hardening 837
Steeplejacks
risk lives in working on Eiffel Tower..... 742
sailors serve as steeplejacks in painting ship's funnels 776
Stepladder
pantry step, handy..... 519
steps built on drawers.....1016
Stereopticon—fireproof, glass slides replaced by films 434
Stereoscope—pocket 415
Stilts
adjustable 694
"walking stick" combination of stilts and pogo stick 335
Stone Age—boat, relic of..... 595
Stone Mountain
Lee's statue on Stone Mountain..... 733
memorial, Stone Mountain, congress authorizes minting of fifty-cent pieces to commemorate 67
Stones—from the sky..... 222
Storage Batteries
compact storage B-battery..... 310
distilled water poured from milk bottle into. 525
for dry cell tubes..... 493
post cleaner 138
removing lugs from..... 659
rubber mat for storage battery..... 504
waterproof box 518
Stores—serve-self, on wheels..... 283
Stoves
camp-fire cooker, with revolving bracket grid 389
filler for cracks in..... 829
for drying sand..... 651
Street Lighting—lights on towers, London's light bill to be cut by..... 411
Street Traffic Regulations
moving hand on traffic signal at crossing.... 928
sentry box protects policeman..... 36
sun valve, electric traffic lights controlled by. 357
traffic light gives fire alarm and tells engine's route 992
traffic plan of odd and even numbers..... 112
traffic to be speeded by looped crossings.... 718
Strops—razor strop of folded newspapers..... 623
Study and Teaching
blackboard tilts to ease eye strain..... 891
teacher makes study easy..... 64
teaching by means of model flowers..... 743
teaching children by groups of dolls..... 904
Stump Pullers—on tractor..... 596
Submarines—giant to cross Atlantic..... 755
Subways
city's foundations shaken by..... 769
river channel, dynamite deepens over subway tubes 101
Sugar
chemist makes sugar as plants do..... 916
filling world's sugar bowl..... 779
setting afire with ashes..... 600
Sun
electric traffic lights controlled by sun valve. 357
sun power plant runs mechanical toy plant.. 546
Sun Worshipers—cling to strange rites..... 62
Sunlight—plants' heads turned towards..... 225
Sunshine—fatal by use of chemicals..... 197
Superstition
statue, wooden, nails driven in signify prayers for revenge 242
toadstones once in demand as talisman..... 903
Surf Riding
airplane toboggan 719
pneumatic, inflated surf board..... 362
surf board, cowboy rides bucking broncho on 429
Surgery
sleepless, predicted 248
with radio knife..... 297
Surveying
determining grade lines on land..... 651
tin funnel used for mark..... 829
Swimming
puncture-proof vest for swimmers..... 418
rubber helmet 765
Swine
hog wallow, concrete..... 475
hogs, feeding trough for..... 514
hogs tattooed by Uncle Sam to trace plague. 587
silk purse made from pig's ears..... 608
slop barrel for feeding hogs..... 667
Swing
lawn, durable 699
seat, wagon wheels make..... 161
Switchless Auto Stop—run by drop of mercury in tube 958
Sydney, Australia—single arch bridge for..... 411
Symbols—skeleton symbol of jinx air fleet..... 886

T

Tables
bookcase and table combined..... 355
camp table and bench combined..... 174
chair stool and table combined..... 225
extension, locking 868
folding tables 1014
inlaid, twelve years to carve..... 17
movable workbench 1036
sixty-thousand pieces in table..... 905
space conserved by half round..... 343
storing leaves of table..... 335
Tailoring—eyelet fastener cuts hole and rivets.. 819
Tanks
concrete, repairing 140
revolving sign on, advertises theater..... 982
Tanks—Military—turned into tractors..... 747
Tappeiner, Hermann von—German chemist who tested acridine 197
Taste
ham, flavors of told by smell..... 770
teas, flavors of told by taste..... 770
Tatio, Mount—volcano to be tapped for steam... 721
Taxidermy—boy scouts learn to stuff animals.... 617
Tea
flavors told by taste..... 770
grown by the ton..... 967
tasters hired to drink..... 10
Teapot—lids, repairing 160
Technical Education—logging taught..... 434
Teeth—old market for..... 209
Telegraphy
greater speed in cable messages promised... 918
how news is flashed..... 567
permalloy to speed up cables..... 363
Telephones
automobiles more popular than telephones.... 439
guide printed on paper reel saves time..... 113
increase of lines..... 819
metal-boring insects injure..... 642
operators employed in New York city..... 37
photographs sent over telephone..... 187
several listen or talk at same time through.. 234
short circuit caused by eagle's nest..... 892
talkless phones for deaf mutes..... 636
telephone connects studio in Boston with Springfield, Mass. 307
tests, how to obtain best results shown by... 535
wire run through city tunnel..... 546
yearly output of cable-phone..... 417
Telescope
giant telescope in Russia to observe Mars.... 575
huge, Mars to be photographed with..... 397
micro-telescope, range from insects to stars.. 209
Temperature—instrument measures surface temperature 736
Templates—gear-tooth template for drafting..... 654
Tennis
court cover, folding, ground kept dry by.... 538
courts made of roofing..... 793
racket with folding legs..... 252
Tents
folding, for auto trips..... 65
one-pole, serves as raft..... 711
pockets in, for small articles..... 875
Terotornis Merriami—skeleton of largest flesh-eating bird 576
Testing
compact electric fuse tester..... 320
crankshaft for cracks.....1034
how to obtain best results from telephone shown by 535
inventions tested for safety..... 821
invisible wire gauges strength of current.... 249
laboratory for used autos..... 223
loose wristpins, finding.....1047
machine for testing elevators..... 394
measure pulling power of horses..... 234

Testing: (Continued)
mileage of autos affected by roads..... 578
motor-made gale used for testing airplanes.. 415
rod bearings 1047
tester for filament circuit..... 306
testing headset for sensitiveness..... 298
Uncle Sam bakes bread to test flour..... 939
Theaters—ship built on land is movie theater and bathhouse 733
Thermometer
for measuring heat..... 463
ocean current sought with..... 375
Thermostat—renewing a wafer..... 516
Thistles—a profitable crop..... 946
Thompson, William Hale—"Big Bill" to sail around world 946
Thunder—does not sour milk..... 577
Tiles
mother-of-pearl 283
plunger aids in laying..... 477
Time
day at sea to begin at midnight..... 784
setting clocks by radio.....1021
ship's time told by bells based on captain's trick 586
Tin—"catches cold" 418
Tinsmith—seam folder for tin work.....1041
Tires
cost cut by fusing rubber..... 16
door mats woven of old auto tires..... 919
emergency patch 509
footgear, automobile tires used to make..... 771
pneumatic tire for giant aircraft..... 888
removing compression sleeves from auto tubing 835
U. S. output increasing..... 775
valve "rosettes," removing..... 162
Toadstone—once in demand as talisman..... 903
Tobacco
grown in Canada..... 940
tobacco store carried on back of owner.... 200
Tokyo, Japan—earthquake damage, cubist art and sheet metal repair 248
Tool Box—on casters with seat for workers.... 115
Toolholder—spring tool holder for the lathe..... 658
Tools
case for small tools..... 478
cutter, revolving, trims wood without crushing 123
kit for the farmer..... 148
recessing tool 1044
screw holder, hard places reached by..... 816
socket wrench aids radio set assembling.... 130
wrench, one-handed, self-adjusting..... 743
Toothbrush—and paste holder..... 687
Toothpaste—preserving 514
Toothpicks—30,000 trees needed yearly..... 990
"Totem"—carved in dead tree..... 68
Tourists—gypsy life lures..... 215
Toys
air from balloon drives boat..... 369
airplane coaster 118
arrow parachute 1011
balloons, toy, coating prolongs life of..... 17
balloons, toy, help in aiming big guns..... 467
blockhead, giant, dispenses gum in amusement park 470
electric village 425
French air progress speeded by toy planes.. 808
golfers imitate open-air game..... 233
locomotive, reversing switch for..... 344
making metal wheels for toys..... 686
mysterious submarine 999
novel windmill 175
optical illusion, toy provides..... 520
plane, bombing and battleship..... 517
queen's doll house has tiny dishes..... 258
rattling toy that shoots sparks..... 912
soldered fittings for toy boats..... 869
sun power plant runs mechanical toys..... 546
teaching children by means of groups of dolls 904
wood horse has rubber-tired wheels..... 361
Tractors
adjusting binder hitch for small tractor.... 476
digger and beet topper attached to..... 462
guided like wheelbarrow used as switch engine 247
one-man, grades roads, digs ditches and cuts grass 770
tanks turned into..... 747
Trailers
automatic fifth wheel on trailer does away with jacks for unloading..... 604
convenient hitch 155
for carrying children 1003
light automobile trailer..... 515
Transportation—progress, picture shows..... 642
Trapdoor—control for roof..... 327
Traps—effective roach 160
Travel—swiftest way to girdle earth by land and water 440
Trays—draftsman, swinging tray aids..... 666
Treasure-Trove
gold mines of Arizona lure fortune hunters. 38
gold seekers, "Last of Galleons" tempts.... 102
Trees
blight-resisting chestnut found in China.... 574
chaulmoogra tree cure for leprosy..... 747
concrete tree trunk as office of realty firm in Los Angeles..... 411
growth, instrument for measuring..... 402
juniper, three thousand years old..... 735
land to be reclaimed by rain trees..... 595
lumber for fifty-five rooms cut from one tree 785
piers for footbridge are trees..... 786
tree, old oak, boundary dispute witness..... 112
Tripod—safety first for..... 334
Trolleys (aerial)—bring logs to mill..... 635
Trucks
brakes for shop.....1035
for handling hogs..... 139
small, for home and shop..... 266
Tunnels
lifting lid from a city's streets..... 805
New Zealand, opening of..... 76
oldest electric, extended with boring shield.. 360
Otira railway, tons of explosives used in building 777
two hundred feet under earth, risk death in building 601
Turbines
steam at twelve hundred degrees operates.... 886
twenty per cent less coal used by turbine locomotives 816
Turntable
for cash register..... 329
space in home saved by..... 253
Tweezers
draftsman's pen used as..... 321
long-distance 873
Typewriters
cabinet, homemade 697
calculator on, problems solved and answers written by 258
cleaning 868
crowding the 155
label holder for..... 101
minus individual keys is operated by pointer. 264
pad for oiling bars..... 329
portable, rigid holder for..... 351
shock absorbers for..... 693
soundproof cabinet on..... 240
type, hand set for typewriter..... 819
with piano keyboard..... 883
Typewriting
taught by phonograph music..... 196

U

Umbrella—rib bow 333
United States—Army—keeping busy in peace time aiding industry and agriculture..... 554
United States—Bureau of Standards—some work done by 103
United States—Mint—banknote plates scrapped for battleship castings..... 56
United States—Navy
how guns are trained on targets..... 419
how Navy keeps anchors from getting lost.. 544
maneuvers of, in peace times..... 377
model of destroyer "Fox"..... 573
phantom ships for gunnery practice..... 909
United States—Population—census figures show less births and more deaths..... 36
United States—Post Office Department—postal service, U. S., biggest single business..... 538

V

Vacuum Bottles—ten-gallon, ice cream shipped in 54
Vacuum Cleaners—for fields, stops wasting of seeds 53
Valves
attaching brass valves..... 836
grinding 313
oiling valve stems..... 322
wire bracket holds springs..... 327
Van Horn, D. R.—Homemade swing cut-off saw.1050
Varnish and Varnishing
black, for metal parts..... 662
hints on 347
woodwork varnish and stain, how to clean.... 161

Vegetables
Desolation Island covered with cabbage.... 564
ethylene gas ends winter sleep of potatoes.... 552
ventilation keeps potatoes in condition..... 870
Vengeance—nails driven into wooden statue signify prayers for revenge..... 242
Ventilation—proper for barns..... 841
Ventilators—window, self-adjusting 342
Violin
change in construction results in better tone. 222
with horn for sounding box..... 578
Violin Bows—horses bred for hair for..... 541
Vocabulary—radio increases 495
Vocation—field for skilled workers in forestry... 256
Vocational Education—veterans, disabled, crafts mastered by 545
Voice—instrument for taking picture of..... 467
Volcanoes
Mount Tatio, to be tapped for steam..... 721
yield fortunes from by-products..... 252
Voyages—cypress ship "Big Bill" to sail around world 946
Vulcanizer—leaks in roof prevented by electric.. 803

W

"Walking Stick"
combination of stilts and "pogo" stick..... 335
flashlight concealed in..... 220
Wallpaper
colored aluminum used for..... 462
tying bundles of.....1047
War Memorial—chimes in tower to have two hundred tones 431
Warfare
air raid staged inside theater..... 602
night, blindfolded soldiers taught during day. 813
war tank wrecked by airplane during battle maneuvers 941
with the new mosquito fleet..... 906
Warships—"Hermes," aircraft mother ship..... 284
Washers
made from an old hat..... 699
making durable valve washers.....1043
Washing Machines
drain pipe for..... 343
homemade 859
percolator in wash boiler..... 956
Washington, D. C.
chimes in tower of War Memorial to have two hundred tones..... 431
science wonders shown in National Academy. 427
Waste Products
automobile bodies cut from planks..... 608
banknote plates scrapped for battleship castings 56
billion dollars' worth of heat wasted every year 466
carriage wheels as window frames..... 991
cattle guard made of cactus.....1035
door mats woven of old auto tires..... 919
engineers seek ways to stop electric losses.. 740
fortunes found in junk..... 773
grape seeds and skins converted into oil and stock feed 200
harnessing power of explosives..... 643
leaves made into paper and fuel..... 193
motorcycle wheel improves wheelbarrow....1049
oil refining plant uses abandoned fire engine.. 800
ornaments made of deadly war gases..... 214
reinforcing corroded steel tower.....1041
skid chain for door handle.....:.....1018
thistles a profitable crop..... 946
volcano Tatio to be tapped for steam..... 721
waste cloth used by button coverer..... 642
wasted heat goes up chimney..... 593
worn paving brick used for manholes.....1034
Watches
broken up by Uncle Sam to test skill of makers 912
railway "don'ts" for 799
Water
cooling kink 320
distilling apparatus 1015
underground springs and wells fed by reservoir 247
Water Pipes—reducing pressure in..... 166
Water Sports—water bicycles for river carnival.. 947
Water Supply
pipes, eleven feet, city water supply doubled by 616
tunnel two hundred feet under earth..... 601
Water Wheel—on floating raft rises or falls with river 218
Wax
produced by insects used for candles in
Wax: (Continued)
China 910
tray for beeswaxing screws.....1034
wax dummies replaced by wood..... 812
Wealth
fortunes found in junk..... 773
in U. S. rises seventy per cent in ten years.. 226
Weather
mirror to measure the speed of clouds..... 624
radio static used as weather warning..... 893
unusual not fault of radio.....1027
vanes, becoming popular..... 450
Webb, William H.—school for ship designing in New York 577
Wedding—first radio 495
Weeds
blast of engine kills along railroad right of way 596
craft cuts 974
Weighing Instruments—roadside scales for autos. 947
Weights and Measures
scale, large, weighing light objects on..... 702
short, tested by U. S. inspectors..... 364
standards guarded as closely as crown jewels 572
Welding
chandelier made of twenty-five thousand welded pieces 546
handy rod holder..... 828
homemade electric welder..... 831
tiny outfit carried by airmen..... 748
welding machine operates on any power supply 122
Wembley, England
arts of British Empire shown at exposition.. 210
tropical exhibit at Wembley shows war on disease 575
Westminster Abbey—old world wonders lifting floor reveals 615
Whales
floating factories for..... 18
ships sunk by..... 795
Wheat—English, increased yield of..... 582
Wheel Chairs—electric, luxurious as auto..... 584
Wheelbarrow
auxiliary wheels for barrow.....1047
motorcycle wheel improves.....1049
Wheels
as window frames 991
metal, making for toys..... 686
motorcycle wheel on wheelbarrow.....1049
Whetstones—"dead," burying in ground renews. 876
Wigs—colored, of spun glass..... 601
Wilson, Woodrow—bust in Devoe Park, New York City 593
Windmills
built on silo generates light and power for farm 917
electricity generated by..... 747
towerless with merry-go-round sails..... 927
Windows
convenient windows for poultry house..... 513
frames for small buildings..... 322
lockless, for skyscraper..... 615
neat prop for..... 167
planing frames 667
screen and storm-window fastening..... 660
washer and wiper requiring no water, bucket or soap 647
washing tools carried in small wagon..... 582
Windsor H. H.—comment and review..... 46
Windsor H. H. Jr.—What the Panama Canal means to you 749
Wire—stretching poultry wire.....1001
Woman—girl held on spikes unharmed by hammer blows 266
Woman—Occupations
eastern high school teaches girls auto repairing 587
goat dairy run by woman..... 291
inventor of 47 patents..... 781
parcel service, girls who drove wartime motors, conduct 596
queer jobs undertaken by..... 464
2,000 women doctors in England..... 710
Wood
calking seams of green lumber..... 947
how cells carry sap of..... 34
knots, shellac and red lead "kill"..... 349
line poles, etc., life lengthened by chemicals. 777
making from corn cobs..... 240
photographic power of wood..... 440
porch columns, preventing from rotting..... 348
prolonging life of wooden well curbs.....1040
wax dummies replaced by wooden ones..... 812
wool made from wood for insulating buildings 416

Wood Carving—bird models, wood carver makes 368
Wood Finishing—floors, yellow pine, finishing... 512
Woodwork
furniture without nails made by boy scout.. 958
tray for beeswaxing screws.....1034
Wool—made from pine-tree leaves..... 720
World War
eighty billion dollars estimated cost of..... 220
memorial for Military Park, Newark, N. J. 200
memorial, searchlights reveal beauty of..... 235
Wrenches
magazine nut wrench..... 324
self-adjusting, one-hand 743
Writing—stone slab butcher's bill forty centuries old 990

Z

Zinc—produced in U. S..... 957
Zoological Gardens—feeding animals in..... 787
